

SITE OF NEW ORPHEUM IS PURCHASED

Property On the East Side of Broadway, Between 19th and 20th Sts., Is Bought for Construction of Theater

Estimated Cost of Land Put At \$210,000; Building Will Represent Expenditure of \$1,000,000; Work Rushed

Oakland is to have a new million dollar Orpheum.

Announcement of the closing of a deal by the Orpheum Company with J. F. Carlston, president of the Central National Bank for the property on the east side of Broadway, between Nineteenth and Twentieth streets, was made today. The land measures 125x150 feet and the purchasing price, which was not made public, is said to be close to a quarter of a million dollars.

The Orpheum company has plans for the new theater under way and will start construction on a building to be between \$750,000 and \$1,000,000 within a short time, Martin Beck, president of the circuit, said today, through his attorney and representative in San Francisco, S. Laz Lansburgh.

NEGOTIATIONS FOR SALE UNDER WAY SIX MONTHS.

Negotiations for the sale of the property and for the establishment of a modern Orpheum theater in Oakland have been under way for the last six months, an announcement of the general plan having been made in THE TRIBUNE some weeks ago. The deal for the transfer of the real estate was closed by A. C. Blumenthal & Co., Inc.

The new Orpheum will be erected close to the new theater that is to be built for one of the largest film corporations at Nineteenth and Broadway and across the street from an eight-story office building for physicians and surgeons, plans for which were announced a few weeks ago.

J. F. Carlston, from whom the property was purchased after Martin Beck had studied the situation for some months, said today that there are many other improvements in the district he has realized an ambition he has held for years.

MAY BE COMPLETED WITHIN EIGHT MONTHS.

The Orpheum Company has been looking for a location for a modern theater for some time, and has also been desirous to give to Oakland a valuable playhouse that would not be excelled by any on the Pacific Coast. With the announcement of the completion of the deal there remains but a few weeks of perfecting the plans and work will start. It is expected that within eight months the new building will be erected and opened.

Grove L. Johnson Is Named Receiver

BY ASSOCIATED PRESS LEAD WIRE TO TRIBUNE.

WASHINGTON, July 7.—Nominees sent to the Senate today by President Harding included John C. Ing of Sacramento, Cal., his registration of the land office at that place; Grove L. Johnson of Sacramento to be receiver of public moneys at the same place; and Joseph E. Gedler of Yerington, Nev., to be surveyor-general of Nevada.

Christians Killed By Raiding Turks

BY INTERNATIONAL NEWS SERVICE LEAD WIRE TO TRIBUNE.

CONSTANTINOPLE, July 7.—A massacre of Christians by Turks has occurred at Mardin in the Vilayet of Diarbekir, Asiatic Turkey, according to official advices from Constantinople today. The Turks seized American missionary funds. The foreign office announced that General Harjington, the British commander at Constantinople, has been authorized by the Allies to meet Mustapha Kemal Pasha, head of the Nationalist government, to transmit any proposals that he may care to make regarding peace. General Harjington has no authority to negotiate himself.

Arrest of Trotsky May Be Confirmed

BY INTERNATIONAL NEWS SERVICE LEAD WIRE TO TRIBUNE.

WASHINGTON, July 7.—Semi-official reports received here this afternoon tended to confirm dispatches stating that Leon Trotsky has been arrested by Nicolai Lenin, head of the Russian government, and is understood to be held in the prison at Moscow. Officials were inclined to view the dispatches with skepticism, however.

TUNNEL AND BRIDGE COMBINED IS PLAN FORGED BY EXPERTS

Davies and Modjeski Find That Bore and Span for S. F. Bay Are Feasible at Cost of Forty Millions

APPROACHES ARE DESIGNATED

A \$40,000,000 combination tunnel and bridge, to swing into Alameda south of the naval base site, and one that will take three years and eight months to build, is the picture submitted by J. Vipond Davies and Ralph Modjeski as a definite substitute for the vision that has been held for years in the minds of residents of both sides of the bay.

The two experts say that the bridge is feasible, that it can be built for no higher a cost than \$40,000,000, and they discuss in detail the plans, specifications, approaches and elevations in a report that is to be submitted tonight. The four or five big points in the report are given out today, and bear out the prediction made by THE TRIBUNE that the span decided upon would be part bridge and part tunnel. The tunnel would leave San Francisco between Fourteenth and Seventeenth streets, sink under the city to a low level, and then go under the bay for 3000 feet. It would come to the surface of the bay south of the Alameda naval base site, and would open on a bridge 12,000 feet long that would connect with a concrete causeway.

This great causeway, the engineers say, could come from any direction desired, the approach being a matter for settlement by Oakland and the Eastbay.

RELIEVE PLANS WILL MEET FEDERAL APPROVAL.

These are the outstanding figures and facts as gathered by Davies and Modjeski after a survey of the bay, a study of traffic conditions and centers, and after all of the possible plans had been tested out. The engineers do not anticipate any difficulties with the United States War Department, and believe that the plans, as they have made them, will meet with Federal approval.

It is pointed out that on a former occasion when bridge and tunnel plans were discussed the government notified those behind the scheme that no bridge would be allowed that did not have 4000 feet from the San Francisco shore, and that this last distance must be made by tube. The Modjeski-Davies plan contemplates a 3000-foot tube.

Today's report followed a banquet at the Bohemian club, San Francisco, last night accorded the engineers by members of the San Francisco Motor Car Dealers' association and attended by Oakland representatives. It was at this meeting that the experts declared the plan was a practical and a feasible one and made the announcement of the detailed report which was submitted today.

The report was accompanied by a complete drawing of the proposed bridge—the structure which Davies and Modjeski have decided will best answer the purpose of rapid travel across San Francisco, in view of the physical conditions, of the requirements of the war department and of the claims of the industrial and commercial districts into one industrial and commercial district.

WILL UNITE GREAT METROPOLITAN DISTRICT.

The plan would unite the various parts of this great metropolitan district into one industrial and commercial district.

Hot Spell Near Close, Report of Weather Bureau

Inter-Towns of State Suffer Heavily When Mercury Tops 100 Mark.

Oakland went through another hot day today, said by the weather bureau to be the last of the present hot spell, following a day in which record temperatures were reached throughout the state. The Chamberlain Observatory tonight recorded a maximum temperature of 94 yesterday afternoon at 2 o'clock.

In Sacramento and San Joaquin valleys 100 degrees was topped at most places and the balmy little town of Needles, on the Arizona state line in the Southern California desert, actually reached 120 degrees. That was done with a weather bureau thermometer carefully sheltered from the sun and possessing the conservatism for which the Bots are noted.

San Jose and other points in Santa Clara Valley topped 100 degrees, the maximum observed in San Jose by the weather bureau being 102 degrees. A stiff hot breeze which served to intensify the heat rather than ameliorate its effects, continued throughout the day.

"NON WARM" IS REPORT.

The forecast of the weather bureau district office in San Francisco declares that it will be "not so warm Friday" in the San Francisco bay region, and to the interior regions, predicting "continued warm" for the Sacramento, Santa Clara and San Joaquin valleys.

Shippers were advised to protect shipments during the next 36 hours against a maximum temperature of 105 through the Sacramento and San Joaquin valleys and against 110 degrees across the desert.

SWINDLER IS CHARGED ON MINE STOCK

Warrants Issued for Arrest of Graham Rice and Others On Complaint of Employees of California Cotton Mills

Salt Lake Police Are Asked To Take Promoters Into Custody; Large Sums Were Secured, Says Head of Mill

Echoes of the Broken Hills Silver Mining company's project in Nevada were heard in Oakland today with the issuing of warrants for the arrest of George Graham Rice, a stock promoter, alias Jacob S. Herzog, and the Child-Barclay company, alias John Doe, an unknown representative of the company with headquarters in Salt Lake, and reputed a member of a stock exchange in that city.

A stock promotion deal in which hundreds of thousands of dollars were involved, the alleged victims, investing several thousand dollars, and pledging themselves to pay as much more on the installment plan, was revealed today by J. R. Millar, general manager, to E. C. Easton, deputy commissioner of corporations, who was called in to investigate the stock deal.

WARRANTS SWORN TO BY COTTON MILLS EMPLOYEES.

The warrants were sworn to by J. H. Harrison and F. Westelst, employees of the California Cotton Mills, who acted in behalf of the other alleged victims, claiming that thousands of dollars in stock of the Broken Hills Mining company, The warrants charge Rice, alias Herzog, and the Child-Barclay company with selling stock in California without a license, that being the only charge upon which the alleged fake stock promoters can be brought before the courts.

The warrants were requested of Police Judge Mortimer Smith after Deputy Commissioner Easton had investigated following the receipt of a letter from the employees of the Cotton Mills from Rice offering them more stock in another company recently organized.

SALT LAKE ASKED TO MAKE ARRESTS.

According to Millar the employees of the California Cotton Mills company were convinced that they were being let in on a legitimate proposition and one that would return to them all that they were required to invest.

The history of the Broken Hills stock deal in California shows that Rice, whose arrest is asked, evaded arrest by leaving California, where his supposed wife was being held by the commission of corporations. The warrants for the arrest of the alleged fake stock promoters were forwarded today to Salt Lake by the local police department requesting that the men be arrested and held for the Oakland authorities.

President to Act On Disarmament

BY ASSOCIATED PRESS LEAD WIRE TO TRIBUNE.

WASHINGTON, July 7.—President Harding expects very soon to take further steps in his disarmament program, he told senators at the capitol today.

The president discussed tentative arrangements with Senator Borah of Idaho for a meeting at the White House regarding Borah's disarmament plan, which provides for a conference between the United States and Great Britain on reduction of naval armaments.

The president is understood to have taken the opportunity to discuss to work out with them just as soon as he can what further steps should be taken toward bringing about disarmament.

It is alleged that the liquor was obtained on the permits and sold, Mrs. Gray and her associates sold the role of bootleggers and selling the bonded goods through smaller dealers.

Mrs. Plumb, who is secretary for a local brokerage concern, is charged with raising the amount on the withdrawal slips and with altering withdrawal certificates. The liquor was withdrawn on the pretext that it was to be used by the Crittenton Home, the Onks Sanitarium at Los Angeles and the Alexander Sanitarium at Belmont.

The liquor was withdrawn at \$145 per gallon in barrel lots, it is alleged, and sold at \$15 a gallon.

Capt. Pederson Dies, Death Wins Sea Race

SEATTLE, Wash., July 7.—Captain L. A. Pederson, wealthy Alaskan salmon trader, who was killed in Berkeley, Cal., and who recently made a race with death from Unimak Pass, Alaska, to Seattle, died in a hospital here today. Captain Pederson was taken ill while at Unimak Pass. He chartered a whaling vessel and sent a wireless message to the Seattle-bound steamer Victoria to pick him up in mid-ocean. In Seattle he was rushed to a hospital where an operation was performed. Burial will be in Berkeley.

Dupont Is Appointed Delaware Senator

BY ASSOCIATED PRESS LEAD WIRE TO TRIBUNE.

DELVILLE, Del., July 7.—Gen. T. Coleman Dupont was today appointed United States senator from Delaware by Governor Denny to succeed Josiah O. Wolcott, who resigned last week to become chancellor of Delaware.

Under recent conversations, considered of the most important nature, are in progress and recent special meetings of the elder statesmen in Tokyo have been the subject of much discussion, participating in deliberations on naval questions and other matters having to do with the relations between Japan and the United States.

Boy Badly Injured While Stealing Ride

SAN FRANCISCO, July 7.—Walter McGregor, 7 years old, is at the Central Emergency Hospital suffering from concussion of the brain and a fractured skull, when he was taken from an ice wagon at Fifth and Anza street. He was stealing a ride when thrown to the pavement as the wagon careened around the corner.

Ship Board Director Is Not Yet Selected

BY ASSOCIATED PRESS LEAD WIRE TO TRIBUNE.

NEW YORK, July 7.—Albert D. Lasker, chairman of the United States Shipping Board, today denied a report from San Francisco that the position of director of operations of the board had been accepted by A. J. Frey of San Francisco. Lasker said no one had been offered the position yet.

Japan Reported in Pact to Quit Siberia

BY INTERNATIONAL NEWS SERVICE LEAD WIRE TO TRIBUNE.

TOKYO, July 7.—The Hochi Shimbun, a leading Tokyo newspaper, today gave prominence to a report from a Chita source, declaring that Japan has entered into a secret pact with the Chita government promising evacuation of Siberia within four months in return for valuable fishing and timber concessions from the Chita government.

Navy Blimp Explodes; Four Persons Burned

BY ASSOCIATED PRESS LEAD WIRE TO TRIBUNE.

PIRATE SHIP SIGHTED ON EAST COAST

Phantom Craft Flees After Encounter With Vessel 200 Miles Off Philadelphia; All Vessels Are Sent Warning

Mystery Boat Approaches Big Steamer, Then Rushes Off, Refusing to Answer Signals, Captain of Munabro Says

BY UNITED PRESS LEAD WIRE TO TRIBUNE.

WASHINGTON, July 7.—Government wireless stations along the Atlantic coast today broadcast a warning to vessels to be on the watch for a mysterious craft that may furnish a clue to the fate of the "vanishing ships."

The warning was sent out after a telephone report from Munson line officials at Baltimore that the mysterious craft approached their steamer Munabro 300 miles east of Philadelphia, refused to answer signals and then, with lights veiled, dashed off into the darkness.

E. T. Chamberlain, commissioner of navigation today declared that the story of Captain Giles of the Munabro was the most substantial evidence yet offered of the suspected operations of sea marauders off the Atlantic Coast.

The story also gave a new turn to the investigation of disappearance of half a dozen ships off Cape Hatteras in the last few months.

The craft that approached the Munabro hesitated to attack a ship of her size. It could, however, successfully attack a ship like the Carol Deering, which sailed ashore last January with all the crew missing, officials said.

By J. J. ROWLANDS.

United Press Staff Correspondent.

BOSTON, Mass., July 7.—Captain Eliza Diamond, second officer of the Munson liner Munabro, in an exclusive interview with the United Press, today described the mystery ship suspected of being a pirate, which approached her liner at a point seventy-five miles south by west of New York June 30.

"On the morning of Thursday, June 30, I went on the first morning of the voyage, and I saw a peculiar looking vessel coming upon our port side. She was making 18 or 20 knots an hour, apparently trying to cross our bow. This vessel came to within about half a mile from us and apparently stopped her engines. She appeared to be sinking us up."

MYSTERY SHIP TURNS TAIL, STEAMS AWAY.

"At 2 o'clock she turned tail and steamed straight out to sea. In two minutes she was out of sight. The vessel carried only masted and range lights," continued Captain Diamond. "It had no side lights, which are compulsory and important in navigation."

"When she turned around, I saw to the vessel's deck, it glared around our stern as we had the right of way, so I failed to take close notice of her hull. I thought it very strange when she disappeared."

"The vessel was about 10 miles southwest of Nantucket lightship and somewhere between 75 and 100 miles southeast of New York. The mystery ship, when she approached us, was holding a course west-northwest, which would have taken her to New York."

NATIONALISTS DEMAND SULTAN'S ABDICATION

BY ASSOCIATED PRESS LEAD WIRE TO TRIBUNE.

ATLANTA, July 7.—The Turkish Nationalist government in Ankara, according to advices from Constantinople today, has demanded that Sultan Mohammed VI abdicate. The latter replied he was ready to abdicate in favor of his son, but the imperial family with the exception of Prince Abdul Medjid, the legal heir, who belongs to the Nationalist party, the advice and.

WOODMEN CLASH OVER INSURGENT DELEGATES

NEW YORK, July 7.—Spirited arguments were made at the convention of the Woodmen of the World today when the refusal to admit insurgent delegates of Texas and Missouri after recognizing insurgents from Nebraska.

Action of the 1919 convention at Chicago increasing fraternal insurance rates caused the factional fight, it was said.

CHILDREN SAVED FROM INCENDIARY BLAZE

BY INTERNATIONAL NEWS SERVICE LEAD WIRE TO TRIBUNE.

SEATTLE, July 7.—Flames broke a window of the home of J. B. Cabanne, inventor of automobile accessories, early today, threw in a gallon of gasoline and lighted a match. Cabanne heard the falling glass and carried his three small children to safety in their nightclothes. The house was burned.

FOREIGNERS IN JAPAN ASK AID OF POLICE

BY ASSOCIATED PRESS LEAD WIRE TO TRIBUNE.

HONOLULU, July 7.—The Japanese language newspaper Nippon Jiji Shinbun today reported that the Yokohama foreign trade board composed mostly of European and American merchants and agents of foreign import and export firms, have asked the Yokohama authorities for better police protection. No specific reason for the request was cited by the Jiji.

LEWISTON, Me., July 7.—The naval blimp C-3 exploded at the Naval Air Station at Hampton Roads today, burning and injuring the four persons who were aboard, according to reports to the Navy Department.

TARIFF BILL VOICES SET FOR JULY 21

House Leaders Agree That Hides, Cotton, Dyes and Oils Schedules Shall Be Voted On Separately

Minority Democratic Members of Committee Denounce Measure As 'Conspiracy to Benefit a Few Favorites'

BY ASSOCIATED PRESS LEAD WIRE TO TRIBUNE.

WASHINGTON, July 7.—With the house beginning consideration of the general tariff bill today the Republican majority has fixed July 21 as the date for a final vote on the measure. Under a program of procedure agreed upon at a Republican conference last night the period for general discussion will be limited to July 14, debate thereafter to be under the five-minute limitation, when the house will consider the specific schedules which the conference agreed shall be open to amendment from the floor and voted on separately. These are the hides, cotton, dyes and oils schedules, all other schedules to be subjected to amendment only by the ways and means committee.

DEMOCRATS DECLARE BILL IS CONSPIRACY.

Democratic members of the ways and means committee in minority report filed today in the house of representatives denounce the tariff bill as a "conspiracy to benefit a few favorites at the expense of all humanity, like every conspiracy hatched in secrecy," the report says, adding: "We repeat our solemn protest against that measure is a plan to plunder the people of our own country and to oppress the people of every country for the benefit of a few men who have succeeded in turning for all practical purposes the taxing power of this government, using it primarily to enrich themselves and secondarily to finance the political party which tolerates, encourages and facilitates the usurpation."

The report declares the tariff was not the result of a campaign, and that this is not the time to write tariff law. The report asserts the problems which "confront our people" cripple our industry, stifle our commerce and compel the government administration have nothing to do with the tariff.

INSUFFICIENT TIME TO DRAFT SUBSTITUTE.

Criticizing the Republican majority of the committee for withholding the bill from the floor for permitting only a week for its study, the democratic members declared there has been insufficient time to draft a substitute. They do not undertake any detailed discussion of the schedules, confining their 27-minute report to a general indictment of the whole measure and the manner of its preparation.

Emphasis is laid upon two things which the democratic members of the committee charge the bill on American commerce and the industrial situation generally, and upon the substitution of the system of American valuation as a basis for levying tariff duties.

Pointing to the rapidly decreasing American foreign trade, the report says:

"The need of no tariff to cut off the imports and the exports of the United States."

"Certainly the natural process is preferable to the infected knife of the tariff. The tariff, by selecting the industries to protect and the industries to destroy can reap the harvest of their campaign contributions seeded last fall. Verily, the oil men are entitled to their reward of the tariff, the wool men and all the others who cast the bread on the waters of a Republican bill."

DECLARE IMPORT TRADE MEASURE.

Dealing with the plan for American valuation of imports the report says:

"First among the subtle covert inroads of the committee for withholding this bill is the proposal to change the base for ad valorem duties from the actual price paid for them when purchased by the importer to the speculative value of the goods, an uncertain, nebulous opinion reached by an appraiser hidden in the recesses of a custom house, consulting the records of the past and bewildered as to what is the alleged wholesale prices of comparable and competitive articles of the United States, or in default thereof, the alleged value in the United States of the identical imported article, whether sold or not, excluding or including all or any cost, charges, expenses, including duties and also profits and commissions. In short permitting the appraiser to place any value he may see fit on the goods and making it impossible for the importer to collect what duty he is liable to pay until he has actually imported and passed them through the custom house."

"In the face of the uncertainty which this bill necessarily compels as to duties it will be impossible for any importer to continue in business and the result of this provision will be the destruction of the import trade of the United States."

AMERICAN STEAMER ON BELFAST ROCKS

BY INTERNATIONAL NEWS SERVICE LEAD WIRE TO TRIBUNE.

ST. LOUIS, Mo., July 7.—The United States shipping board vessel Eastern Sword, bound from New Orleans for Belfast with 5000 tons of wheat and grain, went ashore today at Whitehead, Ireland, about 10 miles from Belfast. At latest reports she was high and dry upon the rocks.

MILITARY BALLOON TAKES DIVE INTO BAY

SAN FRANCISCO, July 7.—A tug from Angel Island Immigration station today rescued Captain L. V. Snell and two army sergeants when a big army observation balloon fell into the bay shortly after it had risen from Fort Baker to observe the bay.

The two enlisted men were in the water fifteen minutes before the tug reached them. The army air service is investigating the cause of the accident. The balloon fell into the bay just beyond Fort Larned.

SHIP RETURNED WHEN ENGINE IS DISABLED

BY INTERNATIONAL NEWS SERVICE LEAD WIRE TO TRIBUNE.

SEATTLE, July 7.—Flames broke a window of the home of J. B. Cabanne, inventor of automobile accessories, early today, threw in a gallon of gasoline and lighted a match. Cabanne heard the falling glass and carried his three small children to safety in their nightclothes. The house was burned.

FOREIGNERS IN JAPAN ASK AID OF POLICE

BY ASSOCIATED PRESS LEAD WIRE TO TRIBUNE.

HONOLULU, July 7.—The Japanese language newspaper Nippon Jiji Shinbun today reported that the Yokohama foreign trade board composed mostly of European and American merchants and agents of foreign import and export firms, have asked the Yokohama authorities for better police protection. No specific reason for the request was cited by the Jiji.

NAVY BLIMP EXPLODES; FOUR PERSONS BURNED

BY ASSOCIATED PRESS LEAD WIRE TO TRIBUNE.

LEWISTON, Me., July 7.—The naval blimp C-3 exploded at the Naval Air Station at Hampton Roads today, burning and injuring the four persons who were aboard, according to reports to the Navy Department.

COMBINATION OF BORE AND SPAN IS PLAN PRESENTED

Experts Report Bay Structure
Would Cost \$40,000,000;
Nearly 4 Years' Work.

(Continued from Page 1)

Commercial community," said Davies, "just as the New York and Jersey sides of the Hudson have been thus united, though they are politically separated. There is no question that the crossing is feasible and practical. The cost will be somewhat heavy, but it will be well warranted."

"We are about to recommend the project which we believe will insure the greatest good to the greatest number. We are submitting nothing spectacular—it is simply a crossing, to be produced at reasonable cost for the benefit of all."

That the United States government need not be expected to make any serious objections to the plan recommended by the experts was the assurance given by Modjeska. He declared further that the building of the bridge will be followed, in comparative few years by an increase of population that would make certain the development of the port. It is this development, he said, that the war department always has in mind when passing upon bridge projects.

Both of the visiting experts declare themselves to have been overwhelmed by the enthusiastic reception and the co-operation which has been given them during their stay.

CO-OPERATION OF
EASTBAY PLEDGED.

F. Marston Campbell, chairman of the Oakland committee of the joint conference committee, once again pledged the co-operation of the Eastbay cities in the movement to bring the construction of the bridge to a successful termination. Earl C. Anthony, vice president of the joint committee, Walter Hesse of Oakland and members of the Motor Car Association were among the speakers at the banquet.

An airplane ride over San Francisco, Oakland, Alameda and other cities of the Eastbay district yesterday served to complete the investigations which have occupied the time of Davies and Modjeska.

They made the trip, piloted by Captain Sam Russell in a 200 horse power Curtiss plane, hopping off from the Marina. They took maps and photos with them, and as they skirted the city and water front they outlined once more the routes which they have been studying, and were enabled to see the advantages and objections of various points which figure as possible terminals for tube or bridge.

Their survey and investigations completed, the experts today are planning a speedy return east. Modjeska plans leaving San Francisco tonight, and Davies, according to his plans, will follow him tomorrow.

RACER ESCAPES INJURY.

CALGARY, Alta., July 7.—During an automobile race here yesterday afternoon, Larson, traveling at sixty miles an hour, threw a wheel and ploughed through the dirt for thirty feet. Larson, turning several somersaults, jumped to his feet, uninjured.

Extemporaneous Blondes, Bobbed Hair Are Barred

By PAUL R. MALLON.

United Press Staff Correspondent
HARTFORD, Conn., "Extemporaneous blondes and girls with bobbed hair have no place in American business life," F. K. Daniels, president of an insurance company employing 3000 women throughout the country, said today.

The company recently issued a mandate that no more artificial blondes or bobbed heads would be employed and that employees already in either category would have to get back to normalcy as rapidly as possible.

"Artificial blonde hair is a sign of light-headedness," Daniels declared. "If any more bobbed-hair girls or blondes get into our offices they will have to crawl through the keyhole."

"Business researches have proven that 90 per cent of artificial blondes are useless. All women who bob their hair are useless."

"My ideal of a business woman is one who has had two or three years' college work, does not powder her nose, does not watch the clock, does not rouge her cheeks and does not smoke cigarettes."

"I can tolerate the woman who lays aside her career. That is comfort. I believe business girls should be attractively garbed in pure business style, the same as business men. Give me long-haired brunettes."

Sierra Nevadas Swept by Four Serious Fires

Blaze in Forest Near Trimmer
Springs, Fresno County,
Worst in History.

BY INTERNATIONAL NEWS SERVICE
LEASING WIRE TO TRIBUNE.

VISALIA, July 7.—Four forest fires of serious aspect are now burning in the Sierra Nevadas, east and north of Visalia, according to reports of aviators flying over the central area of the forest park between Yosemite and the Tehachapi.

A dozen smaller fires are reported extinguished, but a fire reported by the patrol raging today in the vicinity of Trimmer Springs, Fresno county, is declared to be one of the worst in recent years. More than 300 men are fighting this fire.

A brush fire in Sequoia national park below Moro Rock late last night was reported to be dangerous and not under control.

A large section of timber land four miles east of Hume, Fresno county, was reported endangered by a blaze, which, however, apparently had been controlled today.

FIRE DESTROYS MILL.

MARSHFIELD, Ore., July 7.—Fire late yesterday destroyed a planing mill, box factory and sash and door factory at Reedsport, Ore. The loss was \$300,000, partly insured. The Johnson Lumber Company's sawmill narrowly escaped destruction. The origin of the fire was not determined.

CITY, COUNTY AND RED CROSS FOR HEALTH CENTER

Richmond Urged to Provide
\$6000 for First Year's
Support.

RICHMOND, July 7.—The health center committee of Richmond Chapter of the Red Cross will go before the city council, sitting as a board of equalization, on Friday night, and will lay plans for the health center before that body. It was announced today by Harry Marcus, chairman of the committee. The city will be asked to put up as much as it can of the \$6000 it is estimated will cost to establish the health center and maintain it for the first year. The county will also be asked to lend financial assistance, and the Red Cross will endeavor to raise the balance of the money required, it is stated by Marcus.

The estimate of \$6000 as the cost for establishing and maintaining the health center for a year was made to the committee by Dr. C. L. Abbott, who has been active in the campaign for the center and is cognizant with the requirements of the city. This estimate includes the cost of a dispensary and clinic, health supplies for a year and the salary of a nurse. The doctors of the city have agreed to give their services in maintaining the clinic. It is planned to devote one day a week to a clinic for children, another day to a clinic for mothers, another day to treatment of throat and eye diseases, and another day to surgery, etc.

The plans for a branch of the county hospital here are not included in the estimate. This is something that must be acted upon by the board of supervisors. Favorable recommendation has already been made by the hospital committee of the Grand Jury, through the efforts of the Richmond Red Cross.

RICHMOND, July 7.—The Richmond Fire Department report for the fiscal year ending June 30, 1921, shows the fire loss here was \$7745, of which \$6000 was to buildings, and \$1745 was to contents. There were 135 fire alarms during the year. The per capita loss, based on a population of 20,000, was 38 cents.

Only one year since the inauguration of a paid fire department in Richmond shows a smaller fire loss. In 1918 the loss was only \$3415. The figures since 1915, when the first report was made follow:

1915	\$15,984
1916	10,000
1917	16,312
1918	3,415
1919	15,190
1920	22,850
1921	7750

EGGS LAID IN AIR.

LONDON, July 7.—Two crates of valuable chickens, leaving Orlington, Kent, at 9 a. m. were rushed to the air station at Croydon to catch the 10 a. m. air express to Amsterdam. At Amsterdam it was found that two eggs had been laid during the journey—the first time on record it is claimed, of eggs having been laid in the air.

Taft Is Held for Trial on Charge Of Embezzling

Former Banker Is Accused of
Using Dummy Payroll in
Box Factory.

Archibald Taft, former president of a San Francisco bank, was held to answer to a charge of embezzlement this morning by Police Judge Mortimer Smith.

At the time of his arrest he was secretary of the Oakland Box Factory, which has a plant at Fifth and Oak streets. In the complaint, which was sworn to by S. C. Farnham, president of the Oakland Box Company, he is accused of embezzling \$240 for the week of May 20. As secretary of the company Taft made up the payroll.

He is alleged to have substituted a number of dummies, whose salary he drew and kept. It developed in court that he and Farnham had been partners for the last nineteen years. Taft owned eleven shares and the balance of the stock was owned by Farnham.

A letter was introduced in court which was written by Taft to Farnham, in which he stated that the amount he embezzled would be about \$2400. He further said in the letter that it was his intention to pay back the sum he had embezzled just as soon as he was able to do so. He further stated that under the status of limitations he would waive all his rights.

Judge Smith ruled that the letter could not be introduced as evidence against him, but for identification purposes only.

Taft at one time was a member of the Oakland Chamber of Commerce, Merchants' Exchange and a number of other civic organizations. He always took an active part in the affairs of the city.

He was arrested on June 17 in a sanatorium, where he had been recovering from sickness.

AUTO SPEEDER IS FREED BY ASYLUM

John D. Cox, Jr., son of a rancher on Westley, California, and who was committed to Asylum hospital for the insane after a wild ride at 70 miles an hour, during which he injured a number of persons in a collision and drove his own car over a steep bank, was released as cured in less than a month.

County Clerk George E. Gross today received an official notification from Dr. Leonard Stocking, superintendent of Asylum hospital, that Cox was discharged on July 5. He was committed on June 6. The testimony at the lunacy hearing showed that Cox had been overpowered with the American flying forces and had been seriously injured, having undergone an operation at Letterman hospital after his return here. After striking a car containing a number of people, all of whom were injured, Cox continued his wild drive, one wheel being minus a tire, through Alameda park and plunging into his own machine over a bank, wrecking the car and himself being somewhat injured.

Two brothers, Frank and William W. Cox, appeared as witnesses against him in the insanity hearing. Cox is 28 years old.

Little water is to be found on the Cape Verde Islands except in ponds or cisterns.

Death Knell of Fire-Works Sounded by Hayward Council

HAYWARD, July 7.—Hayward is to banish fireworks forever from the list of Fourth of July pleasures, according to acting chairman R. A. Kolbe of the town Board of Trustees, which met here last evening. Following an address by Dr. Henry Powell, who represented the taxpayers urging a safe and sane Fourth of July celebration, he recommended that an ordinance be drawn up prohibiting the sale of fireworks. An ordinance forbidding their discharge within the town of Hayward is already written into the statutes, but no effort has been made in recent years to enforce it, according to Trustees Bruner and Perry, who urged the passage of the proposed ordinance.

Acting on the recommendation of Dr. F. W. Browning, public health officer, on the condition of the R. Foster property at the corner of Third and E streets, Trustee Perry moved that the city attorney be instructed to bring suit against Foster for maintaining a nuisance. The motion carried. Bruner then cited the possibility of Foster's removing the evidence. Dr. Browning suggested that the suit be brought on grounds set down in his written report. Suggestion sustained.

C. W. White, attorney for Hayward, is expected back from his vacation July 24.

A request by a group of taxpayers and property owners of lower C street headed by Mrs. M. J. Martin, that the board shed more light on this portion of the city was read and referred to the committee on streets. Mrs. Martin suggested three lights were needed. A resolution was introduced appointing Judge Frank Mitchell, Jr., as Town Recorder.

The Board of Trustees will hold a special meeting on July 15, to hear any protests on the new zoning and building ordinance, which came up for its second reading at the meeting last evening. If no protests are made

HOT SPELL NEAR CLOSE, DECLARES WEATHER MAN

Interior Towns Continue to
Suffer From Intense
Heat.

(Continued from Page 1)

mento's hot spell bade fair today to moderate. The minimum temperature was 74.

STOCKTON, July 7.—The thermometer, registered 86 at 9 a. m.

TEMPERATURE AT
BAKERSFIELD 110.

BAKERSFIELD, July 7.—The maximum temperature here today was 110 degrees, one degree higher than yesterday.

LOS ANGELES, July 7.—Ocean breezes which held Los Angeles temperature to 73 degrees yesterday, continue today. The weather bureau promises the thermometer will not mount above 82.

SAN DIEGO, July 7.—With a morning temperature of 60, and a sign of a sun, the heavens at 10 a. m. San Diego continued today about the coolest spot in America.

WASHINGTON, July 7.—With many deaths and heat prostrations reported from all over the country, the United States weather bureau could offer no hope for early relief today. No break in the heat wave is in sight, it was stated.

NORTH TONAWANDA, N. Y., July 7.—Intense heat caused the death here of Louise Black, 62.

CHICAGO TEMPERATURE
82 DEGREES AT 8 O'CLOCK.

CHICAGO, July 7.—The weather bureau reported the thermometer at 82 at 8 o'clock this morning. A sweltering night had sent thousands to the parks and the beaches in an effort to snatch a few minutes' comfortable sleep. The heat yesterday was held directly responsible for five deaths, the doubling of the city's mortality rate and dozens of prostrations.

Excessive heat today forced the closing down of eight of the shops and foundries of the Crane company, giving 5000 workmen an enforced vacation.

One man, supposedly crazed with the heat, plunged to his death in Lake Michigan today.

DES MOINES, July 7.—During the entire thirty days since June 7 there has been scarcely a break in the super-normal temperatures, according to the local weather bureau. During the past ten days the maximum daily reading here has averaged a fraction above 91.

BUSINESS MEN MEET.

RICHMOND, July 7.—Tonight at 6:30, in the Richmond Club house, the Business Men's Association will hold an important meeting with out-of-town speakers. Robert Munsell of Oakland will talk on "Sane Credit," and James Lynch of San Francisco will discuss "Sane Efficiency." A substantial dinner will be served by the women of the club. The chairman of the arrangements committee is L. Garfinkle, who announces that an open forum will follow the fixed program.

Congregationalists Name New Secretary

LOS ANGELES, Calif., July 7.—Dr. Charles E. Burton of New York was elected general secretary of the National Council of the Congregational Churches of America by delegates to the biennial convention in session here yesterday. Dr. Burton was for many years pastor of Congregational churches in North Dakota and Minnesota, and in 1913 became general secretary of the Congregational Home missionary board and since has been identified with various boards of the church in executive positions.

The position of secretary amounts to the directorship of the council, it is said. The council represents some 800,000 congregationalists throughout the country. The position carries with it full time duties and salary, and thus differs from the honorary office of Moderator, to which W. E. Barton of Oak Park, Illinois, was elected July 1, at the opening of the meeting.

The council continued its discussion of an educational drive for Congregational schools involving the expenditure of \$10,000,000.

President Goes to Capitol; Unexpected

WASHINGTON, July 7.—President Harding made an unexpected trip to the Capitol today. Reaching the hill, the President went to a private room in the Senate restaurant, where he had lunch with Senator Frelinghuysen of New Jersey. Whether the President's trip to the Capitol was of a social or official nature was not revealed.

MEETS A GREAT NEED.—Harding's acid phosphate is very beneficial for exhausted conditions due to heat, over-work or insomnia.

UNITED IRELAND PLAN ACCEPTABLE TO SINN FEINERS

Republicans Are Willing to Make Terms; King and Smuts Confer.

BY ASSOCIATED PRESS
LEADER WIRE TO TRIBUNE.
LONDON, July 7.—General Smuts, premier of South Africa, was received in audience this morning by King George, the latter having shown a keen desire to be informed of every move in the direction of peace in Ireland. General Smuts gave the King the impressions he gathered while in Dublin, the audience lasting half an hour. General Smuts has been invited to attend Friday's meeting between De Valera and the Southern Unionists, but it was announced today he would not go to Dublin.

There was official reaffirmation today of the statement that the outlook was hopeful and that nothing had transpired which seriously jeopardized the prospects of a settlement.

UNITED IRELAND PLAN.
In an authentic quarter it was declared today that recent utterances and acts of the Sinn Fein leaders were considered to indicate a recession from their demand for an independent Ireland and to imply a willingness to accept as a talking basis a "united Ireland," its legislative and governing machinery to incorporate under a different name from the Ulster Parliament, which would have the approximate status of a provincial assembly. A similar body under such an arrangement would be created in the south, with some form of an "all Ireland" assembly, consisting of upper and lower houses, which would serve as a coordinating body.

The King, it was stated today, has placed Buckingham Palace at the disposal of Lloyd George for the holding of the proposed Irish conference.

By ED. L. KEENE,
United Press Staff Correspondent.
LONDON, July 7.—The fate of peace in Ireland apparently hinges upon the result of tomorrow's conference in Dublin. President De Valera will then resume his conversations with representatives of the Unionists.

Jan Smuts, premier of South Africa, is expected to attend the meeting and make known the results of his conference with the members of the British government yesterday, following his flying trip to Dublin.

Should the conference meet with approval of De Valera and the Unionists it is believed the London meeting will bring the factions together, with Smuts still occupying the role of the intermediary.

Possibility of an official truce was said doubtful today, but there was still likelihood of a cessation of raids on both sides without any formal agreement. And once the guerrilla warfare is stopped, it was pointed out, each side would pause before assuming the responsibility of resuming it.

The British government was understood to be planning reorganiza-

Woman Will Roller Skate To Australia---Aboard Ship

MISS FLORENCE SICHEL, Austrian champion, who has wagered that she can defy the dread malady across the Pacific and skate 25 miles each day. Photographed aboard the steamship Ventura.

Miss Florence Sichel Scoffs at Mal de Mer; To Cover Twenty-five Miles Daily.

Roller skating will be officially adopted as the latest sport aboard passenger liners at sea, was the prediction today of Miss Florence Sichel, woman champion of Australia, prior to her departure for home on the Oceanic steamship Ventura. Miss Sichel came to the United States a year ago and since that time has been visiting friends in Oakland and San Francisco. She said:

"Roller skating is one of the greatest of sports aboard ship and affords an opportunity for more healthy exercise than can be obtained through any other effort. I arranged with

one of the officers of the Ventura to have an adequate supply of skates aboard and I expect to have every able-bodied person equipped with a pair long before we get to Honolulu. I have a wager on that I will cover not less than twenty-five miles each day during the voyage to Sydney. That will mean a total of something above 500 miles. If I sustain this record I will earn my way home without expense. My friend with whom I made the wager has counted on the probability of my becoming seasick. I am never affected by the cruise than can be obtained through any other effort. I arranged with

tion of the home rule act, making it more workable. The government, however, is insisting on two main conditions, that Ireland shall remain within the empire and that there shall be no coercion of Ulster.

BATTLE FOUGHT.

BELFAST, July 7.—A two-hour battle was fought between policemen and Republicans near Dundalk this

morning. The Sinn Feiners fled on the arrival of the police.

LONDON, July 7.—Twenty-five attacks were made on Crown forces in Ireland from ambush attack last week, but the casualties were slightly below those of the preceding week, it was announced by the Irish office today.

A police patrol was attacked, at long range from ambush near Ballygar, County Galway, Tuesday. There were no casualties.

On Wednesday several buildings were burned in the same district, near the zone of the previous ambush.

DE VALERA ASKED SMUTS.

LONDON, July 7.—(By the Associated Press.) The prime minister, Lloyd George, stated in the House of Commons today that he understood General J. C. Smuts, the South African premier, went to Ireland on Tuesday last on the invitation of Eamon de Valera, the Irish Republican leader. Asked whether he had conferred with General Smuts before the latter went to Ireland, the premier replied laconically that he was seeking General Smuts constantly.

In answer to another query Lloyd George said none of the dominion premiers would attend the proposed Irish conference in London, to which De Valera and Sir James Craig, the Ulster premier, had been invited.

SEAPLANES FLY TO SAN DIEGO

SAN DIEGO, July 7.—Eleven P-51 seaplanes of the Pacific Fleet force successfully completed a non-stop flight from San Francisco to San Diego yesterday. The actual flying time of the big aircraft on the 500-mile trip was six hours and 45 minutes. This is within two hours and 40 minutes of the record-breaking flight of Captain Lowell Smith, army aviator, whose mark of four hours and 15 minutes still stands.

Nine of the seaplanes landed at the North Island Naval Air Station at 3:15 p. m. The other two, which took off at Sausalito a few minutes after the first squadron, reached the Air Station at 4:02 o'clock.

The flight was the first inter-city trip made by seaplanes in battle formation and was made through a thick fog. For the first 350 miles of the trip the pilots never saw the water because of the thick mist.

Bar Association May Pick New Judges

LOS ANGELES, July 7.—Announcement was made today from the office of Governor Stephens that the governor would give consideration to the recommendations of the Los Angeles County Bar Association in selecting the three additional superior court judges authorized by the last legislature for Los Angeles court. The Bar Association wrote the governor suggesting that if he was willing it would hold a secret poll and submit about eight names from which he might make three selections that the association felt sure would prove competent.

BREAD PROBE ASKED.
PORTLAND, Ore., July 7.—The city council has adopted a resolution calling on the Master Bakers' Association to show cause why bread prices have not dropped with the decrease in the cost of ma-

COLUSA BANKER'S LAST WORDS DENY GIRL'S CHARGES

Rigid Investigation of 17-Year-Old Girl's Claims to Be Made.

COLUSA, July 7.—A rigid investigation into charges preferred against Edward Myers, banker and society man of Colusa county, by Miss Norene Vaughn, 17-year-old high school girl, will be made by District Attorney Charles K. Atran, who drew up the complaint against Myers and who is also a close friend of Myers.

Myers committed suicide on his ranch here yesterday following his release on \$5000 bail. The statutory offense charged against Myers is alleged to have taken place last October.

The searching probe promised by Atran is the result of Myers' strong denial of the charge. He pleaded his innocence before Atran following the filing of the charge and in the three notes left near the scene of his death he reiterated that the charges were groundless. The notes were addressed to Atran, Jerry Sullivan, close friend, and Tennant Harrington, cashier of the Bank of Colusa, which Myers was heavily indebted to.

INNOCENT, DYING CLAIM.
"I'm innocent, so help me God," was Myers' dying statement contained in the note Myers wrote to Sullivan. Myers and Sullivan were together until 2 o'clock yesterday.

Shortly after he was released upon bonds Tuesday evening, Myers conferred with District Attorney Atran, also his warm personal friend.

"Ed, I'd rather have you up here for murder than this charge," suggested Atran.

"Charles, by God, I'm innocent," replied Myers. "I'm not guilty."

Atran informed his friend that a strong case had been presented by Miss May Vaughn, the mother of the girl. "If you are not guilty, I'd advise you to get a good attorney," said Atran.

"I'd fight to clear myself of this charge and clear my name," the district attorney continued. "If it's a frame-up, go to it and show up."

Atran stated yesterday afternoon that Myers had made such stout denials to him that he had decided to make a close investigation before going into the hearing.

PROBE TO CONTINUE.
When Myers returned to his ranch after being with Sullivan he did not retire. He stayed up all night, wrote the letters and made all arrangements for the disposition of his property and the selling of the present large grain crop.

District Attorney Atran said yesterday that he would continue an investigation. He had heard rumors of others besides Myers being involved and he will make a thorough inquiry. He denied that there was any foundation for the report that the girl's family had offered to settle with Myers \$15,000.

This was the second girl of Colusa county Myers is alleged to have been in trouble over. He married the first girl, a resident of College City, later separating from her.

Myers was the son of Mrs. J. E. Myers of Colusa county. He leaves four sisters, all of them highly connected in business and in the city of Colusa.

SAILOR LEADS TO DEATH.
NEW YORK, July 7.—An unidentified sailor today jumped into the river from the Brooklyn bridge. His body has not been found.

HOW TO REMOVE SKIN BLEMISHES

There's no better way of quickly removing unsightly skin blemishes and keeping the face, hands, neck or arms clear, soft and youthful than by the use of Black and White Beauty Bleach and Black and White Soap. Black and White Soap is an ideal cleanser. Will aid in removing blemishes and keep the complexion in ideal condition.

THE Great Shoe Sale

A Huge Success

7.45—9.45

The hundreds of pleased purchasers who have crowded our shoe section have made inroads into our stocks to an unexpected degree.

We had 7000 pairs; this great quantity has been much reduced, but there is still a nice variety to choose from.

These are from our regular stock only; we cannot add to the quantity, so an early selection is necessary.

LEOPARD CAUSES SCARE ON VESSEL; ESCAPES CAGE

Animal Has Right of Way On
Decks Until Retaken in
Stateroom.

SAN FRANCISCO, July 7.—Smashing its way from its cage on the deck of the vessel, a seven-foot leopard, brought from India as a pet for Mrs. Frank H. Buck, 1675 Sacramento street, by her husband, during a storm made its way to the upper decks and through the passenger quarters of the steamer Granite State, and held members of the crew and passengers at bay for several hours, according to passengers of the steamer, which landed here today.

The leopard was one of a collection of animals being brought to this country from the Orient. The collection, with the exception of the leopard, is the property of D. C. Raab of Englewood, Cal.

In anticipation of its arrival, curators of eastern zoos have been arriving here for several days to be on hand when the animals arrived. Most noteworthy of the jungle animals are:

A giant man-killing cobra.

Three male and two female black leopards—freaks of animal life.

Nine orangutangs from Borneo, some weighing 250 pounds and being the largest ever brought to America.

A male panda—the original "bear cat."

Three regal pythons, 21 to 24 feet long.

Six sacred monkeys of India.

A huge female Whitehead, gibbon, which looks like a small cat.

Three pairs of crested fireback pheasants.

A bush tail porcupine.

The animals are valued at more than \$200,000.

During a storm encountered on the voyage, a wave smashed the cage of the leopard which Buck and his wife were bringing to this country.

After several of the bars had been twisted away, the animal freed itself and circled about the ship. For hours the passengers remained locked in their staterooms, fearful that they would be attacked by the huge "cat."

Before it was captured the animal attacked a mess boy and two waiters, but they escaped without serious injury. Finally the leopard was chased into a stateroom and recaptured.

Mrs. Buck has decided on having an Indian nanny for a pet instead of the leopard.

Yoshitomo Hieshime, secretary of the Imperial Japanese Consulate in America, studying terminal facilities.

LOCAL SKIPPER ISSUES DEFI TO FAIR STOWAWAY

SAN FRANCISCO, July 7.—As a precaution against the presence of fair stowaways aboard his ship, Captain J. H. Dawson, who commands the liner Ventura excepting for a few days each year when he stays with his family at 653 Fifty-first street, Oakland, defies the smartest, prettiest and most able girl or woman successfully to stow away aboard his ship in the future.

Captain Dawson made this announcement just before the Ventura started on the long voyage to Honolulu, Pago Pago and Sydney. He said:

"The public has little idea of the number of persons, especially women and girls, who stow aboard passenger vessels leaving for Honolulu. It is seldom that we do not round up one or more fair damsels who believe they can stow away and get to the enchanted isles without payment of transportation. On my last trip there was one and she was not discovered until we were out to sea and she loafed clear to Honolulu and is there now."

"I have adopted a new system. The moment the ship leaves the pier I have all of my officers and stewards check up those aboard and if one or more is without a ticket, he or she is left aboard the pilot boat. Some of the visitors think it good sport and remain aboard and then the pilots have them on their hands for a few hours. But these incidents are things of the past on my ship."

ANDERSON TAKES OVER CITY MONEY

Herbert Anderson, new city treasurer of Oakland, assumed the duties of his office yesterday, when the final balance was made of the accounts of William Fitzmaurice, the outgoing treasurer.

Fitzmaurice closed twenty years of city service by going swimming. "I regret leaving a place where there are so many old associations," said Fitzmaurice, "but this seems to be my fate, and I know my successor will be given the same courtesy and efficient aid that made my tenure of office so pleasurable."

The City Council discharged Fitzmaurice Tuesday morning, effective immediately, but the task of going out of office was not as simple as it appeared. The entire financial condition of the city treasury had to be gone over, books had to be balanced, and outstanding accounts had to be analyzed. The job, however, was done in as short a time as was possible.

Hikers' Club Will Tour Diamond Canyon

The Contra Costa Hills club will make its next hike up Diamond canyon on Friday, starting at 9:30 a. m. from Fruitvale avenue and Hopkins street. M. A. H. Jones of Richmond will lead the party, on the Diamond canyon trail, which will ascend Sausal creek to its headwaters, cross the Huckleberry ridge and return by the picturesque Thorn Hill road to Piedmont.

A campfire supper and dance will be held by the club at John Hinkel park, North Berkeley, next Monday evening. Miss Annie M. Ward, chairman of the entertainment committee, announces that coffee will be served as usual at the fireside and requests that cups and spoons be brought by the outdoor club members. The affair is to serve as a rally before the departure of the club's party to the Oakland Recreation Camp on July 16. Also, it is planned to celebrate the appointment of one of its directors, L. Glenn, to the post of superintendent of Berkeley's playgrounds.

Burglars Open Safe; Get Twenty Dollars

T. S. Bell reported to the police that some one had opened the safe of the U. S. Pugette company, 368 Tenth street and took \$21 from the cash box, which they tried open. The police investigation showed that the safe door had not been forced open, but the person who opened it used the combination.

The case was investigated by Police Inspector Bodie Wallman, who found that the office windows have always been left unlocked. In order to open the combination, the man said that the knob only had to be turned two notches, as it had not been properly locked.

Gaelic Dancers Will Hold Competition

The Gaelic dancing classes of San Francisco, Oakland and Vallejo have entered for the Gaelic dance competition for prizes to be held Sunday, July 10, at the fifteenth annual reunion and picnic of the original Gaelic dancing clubs of the bay cities. P. J. Keleher has been chosen chairman of the day.

The United Irish Societies of Northern California have been extended an invitation to attend. Proclamation is being made to the American-Irish Liberty League.

D. J. O'Malley and his crack Vallejo dancers will first meet the Oakland class and then the class of San Francisco.

Young Auto Thieves Boldly Question Cop

Two young automobile thieves drove to Officer Clyde Miller at Twenty-fourth and Broadway last night and asked him the direction to Hayward. The officer took the number of the machine. About an hour later the car machine was reported as stolen by Frank Lewis, 323 Washington street. The machine had been parked in front of the Oakland Municipal Auditorium.

Oakland Awarded Traffic Convention

Oakland was yesterday awarded the 1921 convention of the International Association of Traffic Officers, according to telegraphic advice received in this city today. Although Chicago had previously been selected the convention committee yesterday decided in favor of Oakland.

The convention will be held early in October. C. Devitt de Marr, local automobile accessory manufacturer, prominent in traffic affair, has been nominated chairman of the way and means committee to arrange details.

ANOTHER WOMAN ESCAPES

Mrs. McCumber Avoided a Serious Operation by Taking Lydia E. Pinkham's Vegetable Compound

Georgetown, Ill.—"After my first baby was born I suffered so with my left side that I could not walk across the floor unless I was all humped over, holding myself. I doctored with several doctors but found no relief. They said I would have an operation. My mother insisted on my taking Lydia E. Pinkham's Vegetable Compound and I soon found relief. Now I can do all my own work and it is all thanks to the Vegetable Compound that has saved me from an operation. I cannot praise your medicine too highly and I tell all of my friends and neighbors what the Compound did for me."

Mrs. MARGARET MCCUMBER, 27 S. Frazier St., Georgetown, Illinois.

Mrs. McCumber is one of the unnumbered thousands of housewives who struggle to keep about their daily tasks, while suffering from ailments peculiar to women with backache, headaches, bearing-down pains and nervousness, and every such woman should profit by her experience and give Lydia E. Pinkham's Vegetable Compound a trial.

TRIBUNE CARRIERS TO BE GUESTS OF HONOR AT PICNIC

Free Vaudeville and Varied
Entertainment Coming
At Idora Park.

Two hundred TRIBUNE carrier boys who have performed certain duties and obligations from June 11 and July 1, will be the guests of honor at a picnic and outing at Idora Park Saturday, where at 1:30 o'clock in the stadium a number of the TRIBUNE's clever juveniles will stage an up-to-date vaudeville program.

The show is also free to all visitors who come to the park Saturday afternoon. The carrier boys will be the guests of honor for the day and a fine time is in store for them in the way of rides on the various concessions in the park, and "hot dogs." Waffles and ice cream will also be on the bill of fare.

The juvenile performers will stage their show from a specially built stage. The following talented folk, including a number of new clever kiddies, will be on the program: Mildred Johnson, Josephine de Pasquale, Bernice Blundon, Violet Taylor, Bernice Calire, Alberta Blair, Evelyn Cavanaugh, Lorene and Evelyn Rowell, Adele Leahy, Dorothy Burke, Shirley Ives, Katherine Mathews, Barbara Aldrich, Phyllis Ford and Anita Uhl.

Only TRIBUNE carriers who have been sent invitations will be admitted free to the park. The boys are to meet at 11 o'clock Saturday morning at the Telegraph avenue entrance, where they will be checked up and given their tickets. There are plenty of seats in the stadium for all who attend.

Carter Gets Busy On Budget Figures

Budget estimates of the city departments are now in the hands of the Commissioner of Finance except the estimate of the department of public works. Albert B. Carter, the new commissioner of Public Works, says he expects to produce an estimate "in a few days." He admits he has a steady job ahead.

When Commissioner Soderberg left the office he left no budget estimate. When Commissioner Carter took office, Henry Menken, the chief clerk, was told off. Carter, new to the office and given no guidance from his predecessor, has to get the budget together.

"I'm all a mystery to me just now," he admits. "Maybe in a few days I'll have something, but I'll admit I've got some work ahead."

Commissioner Baccus of the finance department asked that all the estimates be in his hands by June 15. Some were and some were not. Soderberg ignored the call altogether. As soon as Carter's delayed estimates came, however, Baccus will get busy on the preliminary parting of the estimates.

SCHOOL HELD IN WOODS.
BERLIN, July 7.—To reduce mortality and to protect the effects of malnutrition numerous German municipalities have established schools in the woods.

ACTIVITIES OF WOMEN

Debutante Announces Engagement

When Miss Lorna Williamson and her mother, Mrs. Willard Forsythe Williamson, arrive from Europe and New York in a few days, their friends will greet the debutante as bride-elect. Yesterday in New York Miss Williamson announced her betrothal to Andrew Talbot, a Harvard graduate, and son of Mrs. Andrew Pope Talbot and the late Andrew Pope Talbot of San Rafael.

Mrs. Williamson and her daughter arrived in New York on the liner Aquitania but a few days ago and are en route west.

The marriage of the couple will be solemnized in the early fall and meanwhile the bride-elect will be feted by the debutante set from both sides of the bay.

Miss Williamson, who is one of the handsomest of the debutantes, was graduated from the University of California and from Bryn Mawr college.

For the past few years the Williamsons and their daughter have made their home at the Fairmont. Following his graduation from Harvard, Talbot did post-graduate work for his master's degree. He has been residing with his mother in Boston, Mass., but formerly the family made California their home. The family has many family ramifications in New York, Portland and California, all of whom are representative in the social and financial circles of the big cities.

Mrs. Williamson and her daughter have been in Europe for several months touring Italy, France and Switzerland.

Two bridge parties are to be given by Miss Dorothea Blair this month, one tomorrow afternoon and the second next Tuesday. At the first affair a score will be guests, having been bidden to meet Miss Lillian Syrdum, fiancée of Willard Griffin, and Miss Leonore Logan Neumiller of Stockton, whose wedding to Harold Larson Graven is to take place in the late summer.

At next Tuesday's bridge the honoree will be Miss Octavia Johnson, bride-elect of Leroy Bush. The trio of brides-elect are former college associates of Miss Blair and members of the Pi Beta Phi woman's fraternity.

Miss Elizabeth Matthews and a party of her sorority sisters, all members of the Delta Delta Delta sorority, are in the Yosemite Valley, where they enjoyed the holidays.

HOSTESS AT INFORMAL DANCE.
Miss Mary Waterhouse, betrothed to Allen Kier McGrath of Berkeley,

MISS LORNA
WILLIAMSON,
daughter of
Mr. and Mrs.
Willard Forsythe
Williamson,
whose betrothal
to Andrew Talbot,
son of Mrs.
Andrew Pope
Talbot, was
announced in
New York
yesterday
—Fraser photo.

will be hostess this evening at an informal dance for a number of her closest friends, entertaining at the home of her parents, Mr. and Mrs. Charles J. Waterhouse, on Jayne street.

Edward Waterhouse, who is in the officers' training camp at Camp Lewis, where some four hundred men are now stationed, is expected home the first of August, when he will accompany his parents on a motor trip to the Yosemite Valley. Ralph Waterhouse will enter the University of California next semester.

Miss Waterhouse has just returned from Ben Lomond, where she passed the Fourth of July holidays.

Mrs. William Ede entertained Sunday evening with an informal supper party, bidding friends of Mrs. Charles J. Waterhouse, on Jayne street.

A trio of hostesses entertained today for one of the newest brides of the summer, Mrs. Lawrence Sherman (Buntice Roeth), who has returned from her wedding trip. They are Mrs. Allen Brown, Mrs. Elvira Weichert and Mrs. George Roeth Jr. It was a bridge given at the home of Mrs. Brown in Berkeley. Twenty guests were present.

MOTOR TO THE NORTH.
Mrs. Louis G. Henes and her children have gone to Ukiah to pass the summer, and will not return to the bay region until the latter part of September.

Mr. and Mrs. George Seth Daniels are motoring to Silver Lake for a fortnight's stay. Miss Edith High and her mother, Mrs. William H. High, are at their country home in Brookdale in the Santa Cruz mountains.

MOTOR TO YOSEMITE.
From Mrs. Loveloy claimed as his bride Miss Emily Gilmore on July 4. Mr. and Mrs. Loveloy have left for the Yosemite Valley for a two weeks' sojourn, and on their return will go to the Loveloy summer home, "Bracken Brae," near Houlter Creek, in the Santa Cruz mountains. They will be at home to their friends at 1309 East Thirty-seventh street the latter part of August.

ONE OF THE MOST RECENT EVENTS was the wedding of John Molner and Miss Algot Hlemyr in marriage the early part of last week at Trinity Lutheran church. Mrs. E. Rynning and Mrs. K. Carlson were the matrons of honor, while J. Carlson and E. Rynning attended Mother. Little Miss Myrtle Carlson, niece of the bridegroom, was flower girl. The bride's flowers were small pink roses and lilies of the valley and the shower bouquets were of pink roses and maidenhair. A wedding breakfast and reception took place at the home of the bride's aunt, Mrs. Rynning, 880 Seventh avenue, where a large number of relatives and friends were guests. The appointments were in pink and white.

Mr. and Mrs. Molner have gone to Alameda to reside temporarily.

Thefts, Burglaries Reported to Police

E. C. Van Pelt of 2527 East Twenty-fourth street notified the police that while he was in swimming in the Piedmont Baths some one entered his dressing room and took \$6 from his coat pocket.

M. C. Jernigan of the Y. M. C. A. reported that his wallet containing \$15, a check for \$30 and a railroad ticket to Texas, was stolen from his room.

Bruce P. Flood of the United States Navy, stationed at Mare

Island, told the police that a suitcase was stolen from his automobile, which was parked at Thirtieth and Broadway. The grip contained clothing.

EX-SERVICE MAN HERO

WICHITA, Kas., July 7.—Fred Taylor, a former service man, today locally is a hero. When an amonia pipe in a grocery store near Taylor's place of business broke he remembered his army training, rushed home, donned his gas mask and stopped the flow of fumes before serious damage was done. A number of customers were nearly suffocated by the fumes.

Vanguard of Elks Reach Los Angeles

LOS ANGELES, July 7.—The vanguard of the "Deer Brothers" is here. Delegations from St. Louis and Jackson, Mich., hold honors for being the first visitors to arrive for the annual grand lodge reunion of the E. L. O. E., which opens here on Monday.

The Jackson drill team, which won a \$5000 cash prize and the national championship at Chicago last year, arrived late yesterday on the Santa Fe. The "champs" are under the

leadership of Captain W. Sparks formerly mayor of Jackson. All are world war veterans.

The St. Louis delegation, headed by Dr. Carroll Smith, a past exalted ruler, and Lawrence McDaniels, leading knight of the lodge, arrived at almost the same time as the Jacksonians over the Salt Lake route.

MABEL NORMAND TO REST

LOS ANGELES, July 7.—Mabel Normand, comedienne, will leave Monday for a vacation in England. She will spend ten days in New York before crossing the Atlantic.

DON'T SUFFER WITH A HEADACHE
No conscientious druggist will recommend the continuous use of headache powders for persistent headaches. In such cases something more than temporary relief is necessary, and a physician should be consulted. However, most of us from time to time have headaches from various causes. Such headaches (when they result from temporary derangement of the system) can be relieved by taking a safe, dependable headache remedy. Such a remedy will stop the pain and a good night's sleep will usually remove the cause. Try Bowman's Headache Powders.

HOW ABOUT A FLASHLIGHT?
Eveready Flash Lights are made in more forms than most people imagine. For example, one of the best types of the Eveready Flash Light is a camping lantern, holding two ordinary dry cells. These lanterns will burn steadily for many hours and new dry cells can be readily secured at almost any country store, because they are no different from the dry cells used on automobiles for electric bells, etc. We have other styles, ranging from the size of an ordinary fountain pen up.

AMAMI BATH CRYSTALS and Shampoo
We have just received from London a shipment of Amami Bath Crystals and also a quantity of Amami Shampoo. This is high grade merchandise, and those of our customers who enjoy the luxury of an article of this character will appreciate these two Amami specialties. The Bath Crystals sell at 50c, \$1.25 and \$2.50. The Shampoo sells at 15c per envelope.

No More Gas in Stomach & Bowels

If you wish to be permanently relieved of gas in the stomach and bowels, take Balmann's Gas-Tablets. Balmann's Gas-Tablets are prepared distinctly and especially for stomach gas, and particularly for all the bad effects coming from gas pressure.

That empty, gone and gnawing feeling at the pit of your stomach will disappear; that anxious and nervous feeling with heart palpitation will vanish, and you will once more be able to take a deep breath, so often prevented by gas pressing against your heart and lungs.

Your limbs, arms and fingers won't get cold and go to sleep, because Balmann's Gas-Tablets prevent gas interfering with the circulation; in after dinner will soon be relieved of a desire for some form of entertainment. Your distended stomach will reduce by inches because gas will not form after using Balmann's Gas-Tablets.

Get the Genuine in the Yellow Package from any reliable druggist or the Owl Drug Co.—Advertisement.

This Leaves the Arms Free From Hair Growths

(Toilet Talk)

A simple method for completely removing every trace of hair or fuzz is here given. This is painless and usually a single treatment will banish even stubborn growths. To remove hairs, make a thick paste with some powdered delatone and water, spread on hairy surface and after about two minutes rub off, wash the skin and the hairs are gone. This method will not mar the skin, but to avoid disappointment be certain you get delatone.—Advertisement.

CONVICT SHOOTS MAN, KIDNAPS HIS FAMILY, IS KILLED

Posse Overtakes Abductor, Who Is Slain While He Threatens Women.

HOOD RIVER, Ore., July 7.—Luther Pagan, 31 years, pardoned ex-convict, appeared suddenly yesterday at the home here of Miss Louise Watkins, for an attack on whom he had been sentenced to the penitentiary at Salem in 1918 and demanded to see the young woman. Her stepfather, T. J. Miller, refused his demand.

Pagan shot Miller in the chest and arm. Then after having Mrs. Miller summon a doctor, Pagan herded the terrified wife, her daughter, Pearl, aged 20, and a ten-year-old boy who was present, into his Miller automobile at the point of his gun and sped away with them.

The Miller automobile was surrounded by a posse. For two hours Pagan had held the posse at bay. He was induced to leave the car and was shot to death.

Pagan placed his pistol against the young woman's body, with threats to shoot if officers or citizens of the posse approached too closely. Frequently members of the party tried vainly to trick the apparently crazed desperado, but they withheld their fire for fear of injuring or killing the women in the car.

Finally Pagan was offered \$50 if he would permit the child to go free. He accepted, and City Marshal William Hart went forward with the money.

Pagan left the car, pushing the mother girl ahead of him with his left hand, while he pressed the pistol against her body with his right. As he reached for the money a man in the posse fired, the bullet penetrating Pagan's head. The death scene was witnessed by 200 persons.

Philologists have been able to determine the origin of the Etruscan people of Northern Italy.

Weather

ORPHEUM

Presented by a cast especially selected for the Pacific Coast tour, "Irene," the musical-comedy success, will be presented at the Oakland Orpheum for one week beginning next Sunday night. Matinees will be on Wednesday and Saturday afternoons. The performance will begin promptly at 2 o'clock at the matinees and at 8 o'clock at night. The play is now in its second year in both New York and London.

Gorgeous costumes, special stage settings, pretty girls galore, croony tunes, comedy in plentiful supply all go to make up the combination that has made "Irene" so popular.

AMERICAN

Tom Mix in "The Road Demon," a play of speed and thrills and Alice Brady, in "Out of the Chorus," are the stellar features of the double bill now playing at the American.

"The Road Demon" is a Western story with a hard riding cowboy who essays motor racing has a role replete with sensations.

Alice Brady's film is a pretty story told in a setting behind the scenes of a theater.

On the coming Sunday Tom Mix will be seen in "Made in Heaven," and on the following Monday Alice Brady will be in "The Highest Bidder."

PANTAGES

Alexander Pantages has turned his producer. His first effort will be seen at his local theater next week when he will present Eddie Voght, a well known eastern comedian, in "The Cupid Lull." It is credited with being a most entertaining musical comedy with a host of clever principals and a large chorus.

Nedda Fagan and Elsie return for a week's engagement. Other good acts on the bill will be Dobbs, Clarke and Doris, Harry Bender and Barney Heer and Martha Hamilton & Company.

ARCADIA

After a short rest the prize waltzers will star at the Arcadia dancing pavilion this evening. The contestants will try their skill on a large plank elevated from the dancing floor. Cash prizes will be awarded. Arcadia will be one year old July 21 and a week's special program will be arranged in celebration. There will be a special event every night, probably finishing up with a grand masque.

FULTON

Maude Fulton's season is to be made more than usually notable by the production of the Alice Brady success, "Anna Lucasta," and the latest play from the pen of Miss Fulton herself, "Pinkie."

"Anna Lucasta," which comes next Sunday, Maude Fulton will essay the role of a little Syrian girl, helper in a coffee shop. Her lot is humble, but her ambitions are great. She is determined to be something more than merely a coffee girl.

Her chance for ascent comes when she has made a stenographer and secretary of herself, refined and polished by study and devotion to the art of letters.

"The Pinkie" is drawing crowds this week to the Fulton.

T. & D.

Low Cody, famous among screen stars, will conclude his engagement at the T. and D. theater Saturday. Beginning tonight, the winner of the "personality" contest, of which Cody is one of the judges, will appear on the stage with him.

Cody also appears in "A Dangerous Pastime," which shows him in a dramatic characterization that any boy has yet offered. Buster Keaton and May Allison are additional stars on the same bill, which is scheduled for "The Haunted House" and May Allison in "Are All Men Alike?"

Patricia Dean follows Sunday in "Reputation."

KINEMA

Wallace Reid's "Too Much Speed," which ends a week's run at the Kinema theater Friday night, is drawing crowds to the theater, proving that the public likes Reid best in the zippy stories of racing life which first brought him into popularity.

Reid starts with the hero burning up the road in a race, which lands him in jail to spend his honeymoon. The rest of the picture concerns a plot to ruin the father of the hero's girl, and the mad race which was made on the Beverly Hills speedway with real speed kings taking part.

Next week comes "The Lost Romance."

LOEW'S STATE

Viola Dapa reaches the expectations of her admirers in "Puppets of Fate," which is the attraction on the screen at Loew's State Theater for the balance of the week.

Sam Lewis and Arthur Thornton in "The Great Lovers" score a hit. "Breakfast for Three" is presented by the Lyman, Sherlock Company, Santry and Norton, Gulfport and Brown and the Leach Wallin Trio, complete the bill.

Commencing Sunday, and continuing until the following Tuesday, "The Truant Husband" with an all-star cast, is to be shown.

MacARTHUR

Charles Ray in "Sudden Jim" is the principal feature at the MacArthur Theater for the current week and it is proving one of the box office successes of the season. The picture shows Ray in one of his most human moods and he is surrounded by a splendid supporting cast.

The secondary feature, one that would hold first place in any program, is "The Girl of Timber Claim," an excellent dramatic comedy in which Miss Talmadge finds innumerable opportunities to score.

NEW FRANKLIN

The three-week run of D. W. Griffith's "Dream Street" on a program including Griffith's first picture, a novel extra attraction, will end Friday night at the New Franklin theater.

Saturday a triple program including "The Woman God Changed," the second part of "Hallelujah," "The Last Days of Pompeii," and "The Last Days of Pompeii," and Tony Sarge's "Why Women Lie." "Dream Street" is the story of Gypsy Blair, a fairy-like, brave dancing girl of the London slums, and of two brothers whose love and devotion for each other was tested when each found that the other loved the dancer.

BROADWAY

Charlie Chaplin's comedy "The Kid," will be shown at the Broadway theater today at the New Broadway theater.

Introducing Jackie Coogan, in his first co-starring role, the picture shows Chaplin adopting a waif of the streets and caring for him until he has reached the age of six. The business of the pair, that of breaking and mending windows and other antics provide a continuous roar of laughter.

The pathetic juncture of "The Kid" is reached when the waif is restored to his mother.

"Dangerous Moments" will be on the same program.

CHIMES

"The Easy Road," with Thomas Meighan, will be shown at the Chimes theater today.

The wife he loved had left him! Once she thought him all that a man should be. But success had put him on Easy Street, and Easy Street led downward. He was first on the bottom—and the black river, where hopeless little waifs are saved, saves him. A romance of the deepest kind, since you'll never know with Lila Lee and Gladys George in the supporting cast.

CHILD, 2, VICTIM OF FIRECRACKER

SAN FRANCISCO, July 7.—A fourth death due to the sale of firecrackers to children occurred last night when Frank Romero, 2 years old, son of Abel Romero, 1238 Mason street, died at the Children's Hospital from the effects of a toy explosive which he swallowed last Saturday. Three other children died Sunday and Monday from the effects of burns and injuries inflicted by the forbidden explosives.

According to Deputy Coroner Thomas Burke, the child on Saturday bought the toy from Chris Papadon, 1200 Mason street. When questioned as to the fact that the sale of explosives to children was illegal, Burke said that Papadon replied that he had asked a policeman if he could sell them and was informed that it was permitted.

As a result of the death of little Frank Romero it is expected that drastic action will be taken by civic officials toward the enacting of an ordinance forbidding the sale of explosives to children, now, save these on committees in charge of celebrations.

DEAN HUNT TO SPEAK
SAN FRANCISCO, July 7.—At the Commonwealth club luncheon to be held at the Palace Hotel, on Friday, Dean Thomas F. Hunt, of the University of California, will speak on his "Observations in Europe." Dean Hunt, as head of the Department of Agriculture, was selected to investigate conditions in Europe for the United States government.

BALL BURNS BATTER.
LONDON, July 7.—A batsman on fire at the wicket was an unusual incident witnessed at a cricket match between Bathampton and Combe Dawn. A fast ball struck one of the batsmen on the thigh and exploded a box of matches he was carrying in his pocket. He was able to extinguish the flames before suffering any serious injury, but his flannels were ruined.

GOLF WRECKS HOME.
NEW YORK, July 7.—"And then they took up golf" is about all that needs to be told to explain the marital tragedy of Luther and Jessie Binkley, who were married last December. Mrs. Binkley has just won a divorce. She said her husband presented her suggestion that she buy clubs for him. The judge, who is a golfer, expressed the belief they would never get along again.

Here's why CAMELS are the quality cigarette

BECAUSE we put the utmost quality into this one brand. Camels are as good as it's possible for skill, money and lifelong knowledge of fine tobaccos to make a cigarette.

Nothing is too good for Camels. And bear this in mind! Everything is done to make Camels the best cigarette it's possible to buy. Nothing is done simply for show.

Take the Camel package for instance. It's the most perfect packing science can devise to protect cigarettes and keep them fresh. Heavy paper—secure foil wrapping—revenue stamp to seal the fold and make the package air-tight. But there's nothing flashy about it. You'll find no extra wrappers. No frills or furbelows.

Such things do not improve the smoke any more than premiums or coupons. And remember—you must pay their extra cost or get lowered quality.

If you want the smoothest, mellowest, mildest cigarette you can imagine—and one entirely free from cigarettey aftertaste,

It's Camels for you.

Camel

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

Crow's Feet, Wrinkles, Enlarged Pores

The first application of Howard's Buttermilk Cream will astonish you. The dull, most lifeless complexion is turned to radiant beauty and red or rough hands or arms made snowy white, yet there is not the slightest sign of its use. It actually vanishes from sight and the most heated atmosphere will not produce the least shininess or greasiness of the skin. No matter whether you are troubled with a poor complexion, wrinkles, puffiness around the eyes, crow's feet or lines around mouth, or just a simple roughness of the face, hands or arms caused by wind or sun, you will find that these troubles will quickly disappear with the use of Howard's Buttermilk Cream.

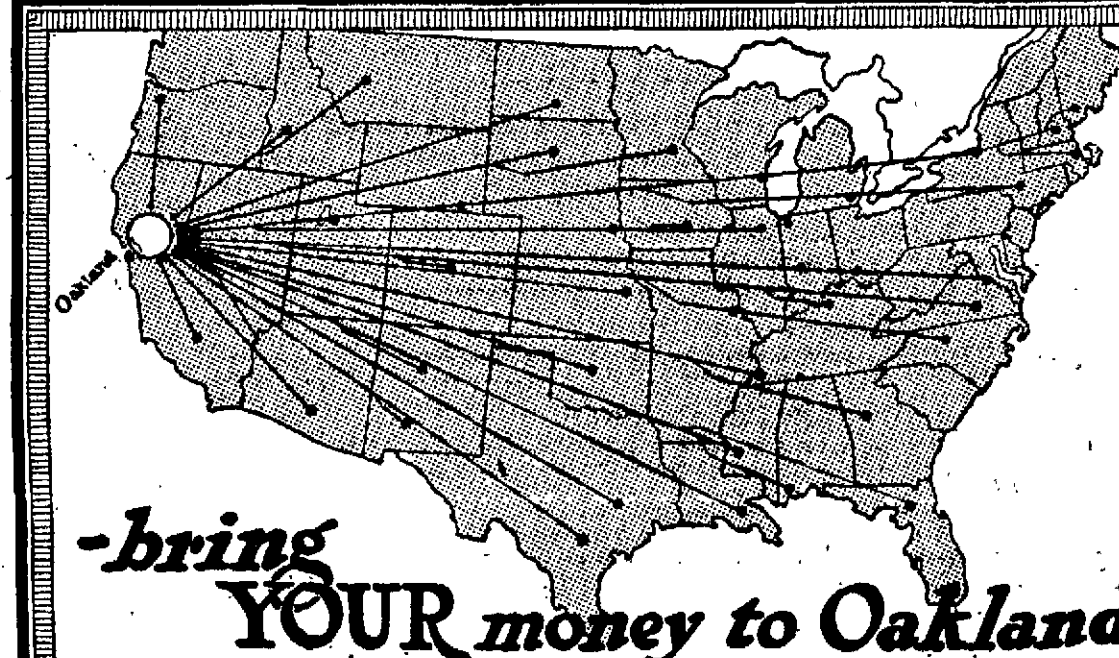

To prove this to your complete satisfaction, get a package today at any first class or toilet goods counter. Insist on Howard's Buttermilk Cream, no other Cream can take its place. If you cannot obtain, send 10 cents silver or stamps for generous trial package of Cream and Soap to Howard Bros. Company, 427 Washington Street, Buffalo, N. Y. Owl Drug Co. can supply you.—Advertisement.

—Ransom shape, slightly imperfect. 6 for \$1.00.

JUDGE HOLDS UP TRIAL OF TWO S. F. BUILDERS' CHIEFS

Court Hints At Politics Being Played in Prosecution of Gompertz, George.

SAN FRANCISCO, July 7.—A strong hint that he regarded the arrest of Charles Gompertz, president of the San Francisco Builders' Exchange, and William H. George, chairman of its conference committee, as a political move was given by Judge Sylvester Mcatee today, when he continued the cases until next Monday afternoon.

"I do not intend that politics shall be played in this court over my head," said the magistrate, as he granted the plea of the defendants for a few days' time. He refused to explain his declaration, but it was apparent that he was in a quandary as to whether the prosecution was being had in good faith.

Gompertz and George were represented by Attorney John S. Partridge, who was once a candidate for mayor of San Francisco. He indicated that he might introduce a demurrer to the information Monday, and said he would put up a strong legal fight. He asserted that he challenged the right of the court to try the case at all, as it was a matter for an indictment by a Grand Jury, according to his belief.

He averred further that he did not believe the Cartwright act applied to the alleged offense of the accused. Both men were arrested on warrants procured by Henry S. Nelson, building contractor, of 5414 California street, accused of an conspiracy to violate the Cartwright anti-trust act.

COLBOURN WILL GIVE TALK TO POLICE FORCE

The entire membership of the Oakland police force will meet Commissioner Frank Colbourn at 2 o'clock tomorrow afternoon in the council chambers, where the new commissioner of public health and safety will make a general talk.

"My remarks will be brief," says Colbourn. "I merely wish to get acquainted with the police department, with its sub-officers as well as its higher officials."

Chief of Police Drew will introduce Colbourn to the Oakland Police Department.

Girl Seized by Bandits in India Returns to America

The wife and three daughters of Chris Becker, New York furrier, who have returned to America after many experiences in the most remote sections of India. They are, from left to right, LILLIAN, MRS. BECKER, FRIEDA and ELEANOR, wearing the high caste Hindu dress. Frieda was captured by hill tribesmen and carried away into a jungle.

Frieda Becker Rescued as Two Chieftains Fight to Decide Who Will Take Her.

SAN FRANCISCO, July 7.—Kidnaped by a band of hillside dwellers and carried away into a deep forest, where she was held captive while two chieftains fought a battle to see which one would claim her as his bride, was the experience of Frieda Becker, daughter of Chris H. Becker, New York fur dealer.

The incident occurred near Peshawar, India, near the Afghan border, where Miss Becker had gone with her father, mother, two sisters and two brothers. With her two sisters, Lillian and Eleanor, and the parents, who arrived in San Francisco last night on board the Granite State of the Pacific Mail line. Her two brothers, Walter and Fred, remained in India to look after their father's extensive fur interests there. The family has been away from New York since April, 1919, and has traveled through all parts of the Orient and India, going into the most remote sections to gather furs from the traders and trappers.

It was at Peshawar, a town which is fortified against the rebellious hillside dwellers, where the Becker family had taken up headquarters. The hillside people, a race uneducated and barbarous, descended upon the town one evening, throwing bombs and firing rifles. The raid was put down by British troops, but during the excitement Frieda Becker was captured and carried away. The two brothers organized a party and took up pursuit, overtaking the bandits as the two chieftains were fighting a battle to determine who should take the American girl as his wife. The incident is only one of many that befall the three girls on their journey through the remote sections of India. The family is stopping at the Hotel St. Francis and will leave in a few days for New York.

HUNTER OFFERS PLAN TO IMPROVE SCHOOL STANDARD

Constructive Platform Is Laid Before Education Association.

DES MOINES, July 7.—Notwithstanding the intense heat wave, interest in the delegate assembly of the National Educational Association in session here is increasing at each session under the leadership of Fred M. Hunter, president of the association, and superintendent of the Oakland schools. The feature of yesterday's session was the president's address in which Hunter outlined and secured the approval of a national plan for the improvement of America's public schools. He reported 75,000 active members now enrolled in the organization, with a delegate assembly at the convention representing more than \$50,000. The various teachers' associations, Hunter declared, are no longer functioning as they were intended to function. They were debating forums, but are yet vigorous, aggressive and anxious to serve the nation.

Hunter declared that the National Educational Association desires to preserve the ideals of America through universal good citizenship, made possible, he said, by educating all children to the standard of citizenship we must have and by causing them to practice it. A school system in every community properly supported financially and supplied with able teachers is the only sure method of spreading good citizenship, he declared.

RADICALS ATTACKED.

Hunter attacked the teachers and professors who are in the spread of radicalism throughout the schools under their supervision. He declared that the national program must provide for the removal of this class of teachers and be replaced by the professionally trained American citizen.

Hunter urged the adoption of a basic and constructive platform with the education should stand in which the high points were:

Well qualified professionally trained teachers.

Elimination of illiteracy which prevails among approximately 25 percent of the citizens of the United States, as shown by the draft.

Americanization of the non-American element.

Universal training for citizenship.

Equalization of educational opportunities.

A secretary of education in the cabinet at Washington.

Hunter added that commercial interests probably would oppose the program outlined because of the great cost entailed.

WOMAN FOR PRESIDENT.

Important developments of yesterday's session included the nomination of Miss Charles O. Williams of Memphis, Tenn., as president of the National Educational Association for the coming year. The election will be held Friday morning.

It was informally announced that the resolutions committee had agreed upon 13 resolutions. A summary of these resolutions, which are expected to go before the general session Friday morning, follows:

1.—A competent, well trained teacher for every teaching position in the United States.

2.—Probationary period of service to determine fitness for permanent service.

3.—Permanent tenure during efficient service after probationary period.

4.—Adequate retirement laws.

5.—Adoption of single salary schedule based upon preparation and expert service.

6.—More adequate program of education for rural America.

7.—Voluntary co-operation with American Legion in developing a program of Americanism. Basic language of public, private and parochial schools should be English.

8.—Citizenship through history and civics endorsed. Compulsory attendance for nine months through high school period advocated.

MONEY FOR SCHOOLS.

8.—Recognize that wise expenditures for schools are an investment, bringing larger return than any other type of public expenditure. Recognize necessity for larger state distributive funds for schools to equalize burdens and opportunities throughout the state.

9.—Renew unqualified endorsement of a department of education with a secretary in the President's cabinet and federal aid and encouragement to the states in the promotion of education as embodied in the "Sterling-Towner" bill, and strongly protest against the merging of education in any other part of the government and the subordination of education to other national interests.

10.—Urges adequate library service on country-wide basis in charge of professional librarians.

11.—A course of study for all schools dealing with taxation and expenditure of public funds.

12.—A national program of health education leading to physical fitness.

13.—Entering upon a program of education leading to international peace.

Chicago is said to be the only city making bids for next year's mid-winter meeting of the department of superintendence.

'MODERN EVILS' CONDEMNED BY C. E. DELEGATES

Immodest Dress, Prize Fights and Immoral Dances Are Scored.

NEW YORK, July 7.—Immodest dress, immoral dances, prize fights and other "modern evils" were condemned at today's session of the Christian Endeavor world convention here.

Formalities of opening the convention dispensed with, the Endeavorers settled down to discussion of reform and uplift.

It is estimated that close to 16,000 delegates have arrived.

The Pacific Coast is represented by more than 1000 delegates. Paul C. Brown, field secretary for the state, led a group of 23 Endeavorers from Los Angeles; other Californians were H. D. Goldthwaite, San Francisco; John K. Young, San Francisco; Angelina Townsend, Watsonville; A. W. Morley, Merced; Thomas Holden, Pasadena; J. B. Brown, Glendale; and Misses Pauline Jones and Grace MacIntyre of San Diego.

YOUTH'S ACTIVITIES.

In outlining proposed activities for the coming year, President Clark said:

"I should like to see a league of Endeavorers set themselves against indecent dress, sensuous, promiscuous dancing and sensual and suggestive moving pictures, all of which are destroying the modesty and eradicating the souls of millions of young people. Let not Christian Endeavor be tainted by practices that lead to conformity with the world, the flesh and the devil.

The home is also our sphere of action. We are all children or parents or brothers or sisters. We belong to homes. Why should not family Christian Endeavor be a vital part of our program for the years to come? Many of us may establish or help sustain family prayers, at least breakfast table prayers, even in the busy days.

"The decline of family religion is a terrible menace to the Christianity of the future. The men and women of generations yet unborn will have reason to bless you if you stem the tide of worldliness in the home and establish there an altar to our God.

GOALS ARE STATED.

The speaker suggested as goals for the society for the coming two years four aims. First, a better grading of societies so that wherever possible there will be junior, intermediate and senior societies; and second, closer and more vital relations with pastor, church and denomination, with increased emphasis on attendance on church services; by co-operation in denominational and local church plans, and by efforts to obtain recruits for Christian service.

Third, more emphasis upon religion in the home to help make the home an agency of constructive Christian training.

Fourth, more emphasis on "personal stewardship" in duties to community and country as well as to God.

Growth of the World's Christian Endeavor Union from one society to more than 100,000 in the past 40 years, with a total membership, past and present, of more than 15,000,000 distributed the world over, was pointed out by the speaker.

Funeral Friday, July 8, 1921, at 10 a. m. from Place's Funeral Hall, 115 Santa Cruz ave., Los Gatos. Interment Mountain View Cemetery.

ACCUSED WOMEN NERVOUS AND WAN IN MURDER TRIAL

Nurse and Artists' Model Show Anxiety As State Shows Its Hand.

TULSA, Okla., July 7. — Goldie Gordon, artist's model, and Mrs. Myrl (Jesse) James, trained nurse, sat in court today with wan faces and were visibly nervous as the taking of testimony was resumed.

Charged with the murder of Judge John D. Edwards, they seemed to realize that although based largely on circumstantial evidence, the prosecution was building up a strong web of evidence about them.

Several physicians testified that the blow on the aged jurist's head and an overdose of some powerful drug caused his death.

SHAW WANTS 1000 YEARS.

LONDON, July 7. — George Bernard Shaw wants mankind to live 1000 years. In a new book, which he says is a "metaphysical Pentateuch," he tells the story of five periods, beginning with Adam and Eve, and ending on a summer afternoon in the year 3192 A. D. The title is "Back to Methusalem."

Stating Facts

To My Many Patrons and Friends:

On July 5th, I wrote the following letter to all of my union employees, posting same with notice also quoted:

TO ALL OF MY UNION EMPLOYEES:

It has at all times been my earnest wish to see harmony exist between employer and employee, realizing that in harmony lies happiness and strength. I have in the past stretched many a point, gone to all kinds of expense, have never before asked you to take a reduction, but on several occasions helped you to get a raise when I thought it right. I have always believed in paying you well, and lately have handed you a Life Insurance Policy, not because I had to, but because I wanted to protect your family and prove to you that I appreciate a good and steady worker.

Now, as you know, and must realize, things are very slow, and in order for us to exist as a union house I come to you in all fairness and ask you to accept a 10% reduction in salary (basic pay of waitresses \$18.00). The Cafeterias, that have no such expenses as we have, are getting the business, and it is absolutely necessary, if we are going to stay in business, that we get some help from you, so I appeal to you, my fellow-workers, to bring pressure to bear, remembering that in all the 10 years I have been in business this is the first time I am looking to you for relief, and you know that it is fair.

Yours sincerely,

(Signed) H. LORENZEN.

NOTICE TO EMPLOYEES

All salaries from July 1st, '21, are paid under protest awaiting adjustment of wage scale. We will use our judgment in deducting 12½% from wages of any employee discharged or leaving our employ, dating from July 1st, this amount to be held by us until adjustment is made.

In reply to this letter, at 6:00 p. m., Wednesday, July 6th, all union help were called out without notice. No consideration was shown to customers or management, the food left to spoil.

Some of our help have been with us since we started, ten years ago. Unfortunately, they were connected with the Cooks' and Waitresses' Union, who decided this walkout—not my steady employees.

To all these men and women who have been with me faithfully and willing to help us along during these days, I wish to extend my sincere thanks and well wishes.

About three months ago I presented all of my employees with a Life Insurance policy according to the length of service. Beginning after 3 months, \$500; 6 months, \$750; 1 year, \$1000 and thereafter \$100 per year more. The evening of the walkout some of the employees showed their appreciation of my looking after their welfare by throwing these policies across the counter. I hereby give notice that these policies have been cancelled.

To our many friends and patrons we beg your indulgence through our present trouble and assure you that before long we will again serve you in a better way, if possible. Quality, Cleanliness and Good Service and a Fair Price will always be our policy.

150 Truck Drivers Taken In by Police

One hundred and fifty drivers of automobile trucks were taken to the police station today because they did not have chauffeurs' licenses. They were all instructed to get their licenses or they would be subject to arrest.

Sergeant Henry Nedderman, head of the traffic department, announced that before he placed charges against the men he would wait for a ruling from the attorney general as to whether the men could be prosecuted under the charge. He says that he also wired to the State Motor Vehicle Department for a similar ruling.

In many cases, Nedderman said, where the men own the truck, they were under the impression that they did not need a chauffeur's license. In all cases the men had their operator's license.

NARCOTIC WAR STARTS.

SACRAMENTO, July 7. — The promised war on drug traffic here by Chief of Police Barney McShane was opened early today when eighteen persons were arrested in police raids. McShane declared the city is flooded with drug addicts who come here because narcotics were sold cheap.

Battleships Will Aid Jubilee Festival

SAN FRANCISCO, July 7.—The battleships of the Pacific fleet will remain in the harbor to take part in San Francisco's Diamond Jubilee

next Saturday afternoon, according to an announcement made today by Admiral E. W. Eberle, commander-in-chief of the fleet.

Several battalions of sailors and marines, led by the bands of the various ships, will be in the line of march that will terminate at the

plaza, where the Stars and Stripes will be hoisted as it was raised on July 9, 1846.

CIVIL SERVICE TESTS. Civil Service examinations will be held for semi-skilled laborers for the city's employ July 21. For senior clerk and stenographer, examinations

Border Booze Runner Suspect Is Captured

CALEXICO, Cal., July 7.—C. Stocking, alleged to have been one of the most consistently successful whisky runners to operate along the

Mexican border, was captured early today by an ambush of immigration inspectors in the Los Angeles desert north of Brawley.

A specially equipped car, built to carry twenty gallons of whisky in concealed glass containers, was confiscated. The whisky compartments

were all filled at the time of the arrest. The car was valued at \$3000. The government operatives laid the trap for Stocking under direction of Immigration Inspector W. Rodcliffe and Customs Inspector E. J. Brown of Calexico. Stocking is in jail at El Centro.

TALK ON NAVAL HYGIENE. Dr. Daniel Crosby, Medical Corps, U. S. N. R. F., will speak before the Second Battalion Reserve Officers at the City Hall this evening at 8:30 o'clock, on the general subject of "Naval Hygiene" and its relation to the maintenance of the efficiency of the personnel. The public is invited.

FIRES IN GRAIN FIELDS ARE SET BY INCENDIARIES

Women Claim They Saw Four
Men Start Blaze; Officers
Investigate.

SACRAMENTO, July 7.—Evidence leading to the belief that many of the disastrous fires which swept Northern California during the past week were of incendiary origin was submitted to Sheriff Ellis Jones here. The evidence is said to be borne out by witnesses, two of whom were women.

S. F. Day, a wealthy rancher and manager of Crane & Co., informed Sheriff Jones that two women living on farms adjoining his, near Fair Oaks, saw four men get out of machines on the highway and run into Day's grain field. The women were suspicious and trailed the men into the fields. They stated that they saw the men fire the grain in several places and then ran back to their car and speed away. The fire spread rapidly and had burned over forty acres before it was brought under control.

Mrs. L. C. Ward, one of the women, was able to give fairly accurate descriptions of the men. She said they were all young, the oldest being about 25 years of age. They were roughly dressed and drove a light touring car. She was unable to get the number of the machine.

Working on the description given them, a squad of deputies from the sheriff's office started an immediate

ELECTRICITY IS AID TO YOUTH DIGGING BAIT

YAKIMA, Wash., July 7.—Applying his inventive mind to the problem of digging angle worms, Joe Siegfried, 10 years old of J. H. Siegfried, electrical expert for the Pacific Power and Light company, has devised a better way. He inserts two electric terminals in the ground some distance apart, connects them up and presses the button. All the worms between the terminals promptly climb to the surface to escape the current. The same method is used to feed the Siegfried chickens.

Irish Flags Greet Prince in Liverpool

LIVERPOOL, July 7.—(By the Associated Press).—A remarkable feature of the visit of the Prince of Wales to Liverpool yesterday was the display in many streets in the Irish quarter of Sinn Féin flags intertwined with Union Jacks.

A prominent Sinn Féiner, questioned as to whether any significance was to be attached to this, replied: "All I can say is that the order to do this came from Dublin."

LORD BALFOUR DEAD.
LONDON, July 7.—Lord Balfour of Burleigh died yesterday. Lord Balfour was born in 1849. He served in many official capacities and was lord-in-waiting to Queen Victoria in 1888. He was lord rector of Edinburgh University 1896-1899, and chancellor of St. Andrews University in 1900.

Investigation. The fires, which have swept the Sacramento Valley for the past few days have caused damage estimated at \$2,000,000.

MILLION LOSS TO YOLO CROPS BY HOT WINDS

Grain and Fruit Suffer From
Severe Weather; Fires
Do Damage.

WOODLAND, July 7.—Surveys of the grain belt of Yolo county which boasts 235,000 acres in barley alone this year, indicate that the losses in grain alone during the high winds of July 3d, 4th and 5th will run over \$500,000. There were about 55 fires dotted throughout the county recorded in the three days. Barns and warehouses were destroyed, materially hampering the storage of this year's crop.

Warren D. Norton, farm adviser, estimates that the wind, which was the fiercest in years, has worked untold damage in the orchard districts of the county and that losses on this score alone will jump to another half a million dollars.

Aracna, world champion milch cow, claims that he suffered losses in the destruction of fences to his expansive pastures which cannot be replaced by coin. It is impossible to replace them because of summer heat and the hard condition of the ground. All told wind and fire will cost Yolo county this year and for the three days only something over \$1,000,000.

Tobacco exports from the United States per capita, have persistently declined since 1790.

CANNIBALISM IN CARIBOU INDIAN TRIBE REPORTED

Canadian Mounted Police Go
to Investigate Rumor of
Eating of Humans.

FORT McMURRAY, Alta., July 7.—Canadian mounted police left here to investigate reports that starving Indians in the Caribou tribe have been eating human flesh. The report states that human beings were found showing evidences of cannibalism.

A few years ago, officials state, Caribou were so plentiful that the Indians ate only the tongues of the animals, which they held as a delicacy. They slaughtered the animals in thousands. The prophecy was made at that time by officials of the Canadian province that the Caribou would soon disappear and starvation would threaten the Aborigines.

New Thousands Fast Coming to CYCOL

When the Associated Oil Company first announced Cylcol—the new and different motor oil—engine owners everywhere tried it. The results were beyond anticipation.

Cylcol goes far beyond the traditions that have existed in the buying of motor oils. "Gravity," "fire," "flash," "burning" tests and "base" are not the true bases of determining lubrication efficiency.

The BIG thing is—how efficient is it, how durable is it, in the motor, under actual service conditions.

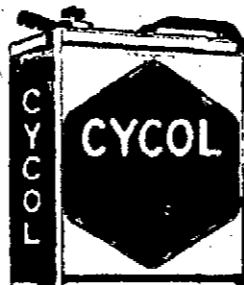

Cylcol is free from destructive "sulpho" compounds. These were economically

eliminated by the new Hexeon Process which is used exclusively by us. It is these "sulpho" compounds which cause motor oils to break down rapidly under engine heat and result in a number of serious and costly engine troubles because the lubricating film between moving parts becomes impaired.

Cylcol-ize your motor today. Have your crank case drained of the old oil and flushed—not with kerosene. Then fill it with the correct grade of Cylcol indicated for your engine on the Cylcol Recommendation Chart. Cylcol is sold for 25c to 35c a quart according to grade.

BURGLAR SUSPECT HELD FOR INQUIRY

Selling of Seal Skin Coats Leads to Arrest of Man and Girl Companion.

SAN FRANCISCO, July 7.—One false move on the part of Jack McGill, the alleged burglar, in connection with the alleged burglary today brought him face to face with two charges of murder and may clear up the mystery surrounding the killings of the city and county in Marysville, the police say.

McGill was taken into custody by four detectives—James Makey, Thomas Conlin, Thomas Murphy and Walter Levy—on his return to the city last night. He was charged with the burglary of the apartment of Mrs. Rose Lewis, 74 Eddy street, and the theft of \$1200 worth of valuables. With him was Miss Mary O'Neil, as McGill's wife, who was also charged with burglary and released on \$250 bail.

Today McGill was charged with murder in connection with the killing in Marysville of John and Eddy, and he was also alleged to have been the man who with two others slew William A. Sedgwick in a basement at 3 Kirk street, October 19, 1919. Sedgwick was beaten to death after being lured from his taxi.

The complaint against McGill was sworn out by the brother of the deceased, Ralph Sedgwick, who was charged with the burglary of the two seal skin coats at Marysville following the alleged burglary here he might have escaped apprehension on the two murder charges, the police say. It was only after he had been booked that a telegram was received today from the sheriff at Marysville asking that he be held for the killing and the burglary.

McGill was released on \$250 bail. O'Neil was released on \$250 bail. The complaint against McGill was sworn out by the brother of the deceased, Ralph Sedgwick, who was charged with the burglary of the two seal skin coats at Marysville following the alleged burglary here he might have escaped apprehension on the two murder charges, the police say. It was only after he had been booked that a telegram was received today from the sheriff at Marysville asking that he be held for the killing and the burglary.

McGill was released on \$250 bail. O'Neil was released on \$250 bail. It was only after he had been booked that a telegram was received today from the sheriff at Marysville asking that he be held for the killing and the burglary.

HOME BUILDERS GIVEN WELCOME

An official welcome to the members of the Equitable Life Assurance Society of the United States last night at a banquet at the Hotel Oakland, presided over by W. W. Gathwaite, president of the Oakland Bank of Savings, and attended by business men of the city, numbering more than 50.

The banquet followed an announcement yesterday that Oakland had been chosen headquarters for the third district of California, representing Alameda, Contra Costa, San Joaquin, Sutter, Yuba, Yolo, Stanislaus, Colusa, Sacramento, Placer, Nevada, Tehama, Butte, Calaveras, Solano, Glenn, El Dorado and Shasta counties, the company's income from which will be shared into Oakland and loaned to home builders of the Eastbay district.

The guests at the banquet were F. H. Davis, first vice-president of the Equitable company, C. C. Miller and H. C. Donnell, second third vice-presidents.

The guests were welcomed by Joseph King, president of the Oakland Chamber of Commerce. He pledged the organization he represented to co-operate with the company in every way to further the building up of Oakland.

Vice-president Davis spoke enthusiastically of the future of the Eastbay district. "I know of no other locality which at the present time is attracting so much interest from financial men and big concerns as Oakland and its surrounding territory," he said.

"The Equitable company has invested more than \$15,000,000 in California, and this by another step which will ultimately bring about the investment annually of several millions of dollars that will put the city on a par with the counties of the new district."

Ben F. Shapiro, who has represented the Equitable company in Oakland for a number of years, was introduced as the district manager. Others who spoke were H. C. Gathwaite and W. W. Gathwaite. Each speaker declared that with the coming of the Equitable company to Oakland a new era in the city's history was being opened.

EDITOR'S WIFE IS ENTHUSED OVER IT

Among the recent endowments of the wonderful medicine, Tanlac, is Mrs. Fannie F. Cuddy, wife of John T. Cuddy, former editor of the Heights News, published in Boyle Heights. Mrs. Cuddy now resides at 727 Euclid avenue, Los Angeles, Cal.

"For some years," said Mrs. Cuddy, "I suffered from indigestion and for two years before I got Tanlac I hardly knew what it was to be free from pain. There is nothing I am describing what I suffered during those two years. Night was always my worst time, for I just lay awake counting the hours and wishing for day to come. I was weak and nervous, and I was not going down until my condition became alarming."

"But I saw a Tanlac statement that seemed to me to be correct. I began taking the medicine. Well, the long and short of it is, Tanlac made me well in a surprisingly short time, brought back my appetite, enabled me to sleep soundly and built me up in every respect."

"From that time on I had no trouble until two years later, when I got into a run-down condition. Two bottles of Tanlac made me feel just splendid, and I'm still feeling that way. I have not language strong enough to express my gratitude to Tanlac, and I am glad to make this statement and give others the benefit of my experience."

Tanlac is sold in San Francisco, Oakland and Berkeley by the Opi Company. Advertisement.

One Reveler Shows Up; Another Leaves "Trail"

BERKELEY, July 7.—Another chapter in the game of "hide and seek" between Patrolman George Kohler and the party of fourteen football players of the University of California, who were arrested last Sunday morning on charges of disturbing the peace, was written last night when former patrolman Henry Villa, said to have been a member of the party, was chased for two miles on San Pablo avenue by Patrolman O. W. Wilson. Wilson accuses Villa of driving at fifty miles per hour and says he will seek a warrant for his arrest.

This morning Miss C. A. Herman, one of the young women members of the party, appeared at police station, surrendered herself, and was released on bail of \$50. A few moments later her attorney, Myron Harris, appeared in the court of Police Robert Edgar, made legal appearance for the young lady, and made request that she be given a jury trial. This was granted, the date being set for July 21.

According to Patrolman Wilson, Villa was seen by him late last night on San Pablo avenue headed toward Oakland. Wilson ordered him to stop, but Villa is said to have waved good-bye to the patrolman and speeded on. Wilson chased him in his "diver" but failed to overtake him.

The young man, who was charged with the burglary of the two seal skin coats at Marysville following the alleged burglary here he might have escaped apprehension on the two murder charges, the police say. It was only after he had been booked that a telegram was received today from the sheriff at Marysville asking that he be held for the killing and the burglary.

McGill was released on \$250 bail. O'Neil was released on \$250 bail. The complaint against McGill was sworn out by the brother of the deceased, Ralph Sedgwick, who was charged with the burglary of the two seal skin coats at Marysville following the alleged burglary here he might have escaped apprehension on the two murder charges, the police say. It was only after he had been booked that a telegram was received today from the sheriff at Marysville asking that he be held for the killing and the burglary.

McGill was released on \$250 bail. O'Neil was released on \$250 bail. TRUE 'ROMANCE' MAY CLEAR THIS DISMISSED FLIER

By FRASER EDWARDS. United Press Staff Correspondent. WASHINGTON, July 7.—Charges of "romancing" about his thrilling air battle over the German lines in 1918 started the troubles of Captain Edmund C. Chamberlain of San Antonio. True romance, he declared today, will end them. His bride of five months has rallied to his defense and is scattering the charges of romance with the stigma of a court-martial dismissal from the Marine Corps. She drew the maps and briefs he used today in testifying before the Senate naval committee in an effort to prove his story of the air battle was true and not a wild falsehood, as alleged.

The young man unfolded his romance to the United Press. He first told how, while visiting a British air field in France, he borrowed a plane and took two British airmen in a battle with twelve German fliers. He shot down two German planes, forced two others to land and falling earthward in his damaged plane he scattered the wreckage of German troops with machine gun bullets. After landing, according to his story, he captured a German prisoner by pretending that his airplane compass was a hand grenade and with his aide carried a wounded French soldier to safety.

Chamberlain's hunt for evidence to substantiate his story, he said, led him to his home—San Antonio. He met the daughter of Colonel A. F. Winter of the army.

Discredited by a local gossip, the alleged bogus hero was refused a dance by the winsome Mary Stuart Winter. Later he had an opportunity to tell his side of the story and she fell in love with him.

Colonel Winter objected to the match. But after listening to Chamberlain's story from the lips of his daughter, she changed her mind. And last February—three days after his dismissal—she married him in Philadelphia.

McGill was released on \$250 bail. O'Neil was released on \$250 bail. The complaint against McGill was sworn out by the brother of the deceased, Ralph Sedgwick, who was charged with the burglary of the two seal skin coats at Marysville following the alleged burglary here he might have escaped apprehension on the two murder charges, the police say. STUDIES OF PAST VITAL TO PRESNET, SAYS COOLIDGE

PHILADELPHIA, July 7.—Science, commerce and social conditions could not progress if our educational system dropped the classics of ancient civilization from its curriculum, Vice-president Calvin Coolidge today told the American Classical League in session at the University of Pennsylvania.

Education is primarily a means of establishing ideals, the Vice-president said, and the first of these is the formation of character, which is the result of heredity and training. It is the ancient classics, he declared, that inspire the ideals toward which all men and nations are striving today.

"The progress of the present hour," the speaker asserted, "is not how we are to solve our economic problems but, where we are to find the sustaining influence for the realization of life. How are we to justify the existing form of government in our republic? On what can we rely for a continuation of that service of sacrifice which has made modern civilization possible?"

"The progress of the present hour," the speaker asserted, "is not how we are to solve our economic problems but, where we are to find the sustaining influence for the realization of life. Seating Capacity of Big Stadiums of World Told

Since the proposed new stadium for Oakland has become a topic of conversation, numerous queries have come in to the Information Bureau of THE TRIBUNE asking about the seating capacity of various famous stadiums of the world. In response to these queries the Information Department has prepared the following list showing the seating capacity of some of the most famous stadiums.

Yale Bowl, 60,000; Harvard Stadium, 23,000; California University Greek Theater, 9,000; Ancient Greek Stadium at Olympia, 20,000 to 30,000, was later enlarged to hold

from 40,000 to 45,000; Ancient Greek Stadium at Athens, 50,000, used for Olympic games. The TRIBUNE's Information Bureau will answer all questions of a general nature except school or legal problems, debates, trade and firm names and queries as to the time of day.

The Bureau is open every day except Sunday from 8 a. m. to 9 p. m. If answers are desired by mail, stamps must be enclosed. Quickest results can be obtained by telephoning to the Bureau. If you have any problems of a general nature to solve Ask THE TRIBUNE Information Bureau, Lakeside 6000.

McGill was released on \$250 bail. O'Neil was released on \$250 bail. the reader must not infer that Nuxated can
make a giant in strength or a world's
champion runner. It does not. It does
the real thing, energizes and builds the
nerve force of your system. It does not
simply increase nerve force to the
point of exhaustion. It does not
overstrain. It does not overtax. It
guarantees that it is easy on the
system. It gives you the strength, vigor
and endurance in two weeks' time
that you have been seeking for years.
It is the only tonic that can be
relied on. Beware of substitutes.
Don't be misled by cheap imitations.

THURSDAY, JULY 7, 1921

GOVERNMENT TO STAY ON JOB.

Although the desire of members of Congress and officials of the government to get away from Washington during the summer season of extreme heat is easily understood and provokes due sympathy, it is gratifying that better business judgment has prevailed and the work of readjustment and reorganization will continue without intermission. The Senate has voted down a proposal to recess for one month. It will stick to the job of considering and enacting new legislation. The government, it is also announced, will not abandon its work until all tasks susceptible of early termination are finished.

There remains much for Congress to do. Of first importance is the revision of the tax schedule and the enactment of the new tariff law. The business and the people of the United States should have been permitted to know on January 1 the taxes to be paid during the current calendar year. But the extent and nature of this burden is not yet known.

Business and industry is waiting on both the revision of taxation and the completion of the new table of tariffs on imports. It will continue to wait as long as possible to see what changes these reforms will make possible and necessary.

The proposal for a month's recess before the subject of a new taxation measure has even been taken up for discussion came as a surprise to a large portion of the people. It has properly been voted down. Business and industry must sweat in anxiety to meet the heavy burdens the present law imposes and it is no unusual hardship on Congress that it remain at its job until such relief as may be possible is available.

WELCOME TO ADMIRAL EBERLE!

Admiral Eberle has raised his flag of command-in-chief of the Pacific Fleet on the super-dreadnaught New Jersey, flagship. He assumes his new command with a program of the navy Department, now in process of execution, to make the Pacific Fleet the largest in tonnage and the most powerful in fighting power ever before assembled under one American admiral. The fleet will be so augmented before the end of the year that it will be substantially larger than the Atlantic fleet.

The new commander-in-chief announces a fine administrative policy. "I shall expect every officer and man of the United States Pacific Fleet," he says, "to keep himself strong, ready and fit to fight and to do his part in making this fleet efficient in the same respect."

Admiral Eberle took the first opportunity to speak in high praise of the condition of the fleet as he finds it, as it is turned over to his command by Admiral Rodman, who brought it out to the Pacific and directed its organization. He plans to maintain the same high standard of efficiency and to improve wherever possible.

It is gratifying to consider the prospect of the most powerful unit of the American navy being located in Pacific waters. While every good citizen devoutly hopes that the time will never come when it will be necessary again to employ the navy in actual warfare, this area is where such employment, if necessary at all, will be found. But the big reassurance lies in the fact that the maintenance of a powerful, effective and efficient fleet in the Pacific will constitute the one reliable safeguard against future war.

The Pacific Coast is not new and unknown to Admiral Eberle. He has seen service here on previous occasions. He knows the people and their broad outlook, their lack of provincialism. May his present tour of duty be as congenial and beneficial as the people of this coast desire it to be.

Panama finds that the government at Washington is determined to stand strictly by the award of former Chief Justice White on the boundary disputes between Panama and Costa Rica. Panama has protested and threatened war and made unbecomingly efforts to arouse unfavorable sentiment against the United States in Latin America. But all to no avail. The territory in dispute between the two countries is neither large nor important. Chief Justice White drew his decision

from history and law and shaped it by his high conception of justice. The American government has done right in upholding the decision of the arbitrator which both Costa Rica and Panama accepted.

THE PRESIDENT FREE TO ACT.

That Congress, in passing the resolution declaring the state of war between this country and Germany and Austria-Hungary at an end, intended to leave very wide powers to the President in the prospective negotiation of peace treaties with the enemy countries is shown by the text of the congressional resolution. The positive action of Congress was confined to annulling the declaration of war with Germany of April 6, 1917, and the declaration of war with Austria-Hungary of December 7, 1917.

Fearing that this action might possibly entail a surrender of some of the rights and privileges accorded to this government because of the war, Congress went into specific reservations. With respect to both countries it included identical clauses, with the exception of the different names. The clause covering Germany reads:

"Section 2. That in marking this declaration, and as a part of it, there are expressly reserved to the United States of America and its nationals all and every rights, privileges, indemnities, reparations or advantages, together with the right to enforce the same, to which it or they have become entitled under the terms of the armistice signed November 11, 1918, or any extensions or modifications thereof, or which were acquired by or are in the possession of the United States of America by reason of its participation in the war, or to which its nationals have thereby become rightfully entitled, or which under the Treaty of Versailles have been stipulated for its or their benefit, or to which it is entitled as one of the principal allied and associated powers, or to which it is entitled by virtue of an act or acts of Congress or otherwise."

The clause regarding Austria-Hungary substitutes for the Versailles treaty the treaty of St. Germain and the treaty of Trianon. Section five of the resolution further reserves all property of the Imperial German government and of the Imperial and Royal Austro-Hungarian government and their successors, and of all German and Austro-Hungarian nationals, which came into possession of the United States during the war for such disposition as the government may later decide to make.

These provisions of the treaty are in conformity with the views of President Harding and Mr. Hughes that the executive department must be left in possession of its constitutional powers to conclude treaties of peace with the enemy countries. This is the right procedure. There were other views in both houses of Congress but the joint conference committee rejected them and composed the resolution so as to leave the negotiation of the peace treaties under the control of the President.

A Northwestern University professor claims that by a long series of experiments he has developed an ear of corn with white, red and blue grains and that within two or three years more he will have them arranged in alternating rows. The usefulness of this performance would not deserve this much space were it not to express the hope that the next professor will try to develop corn with a larger yield of food content.

The world champion and the challenger are now good friends, according to news reports, and when letters begin to arrive from Paris addressed "Jacques d'Empsey" they may offer a suggestion for a change in name difficult for Jack to resist.

The Boston Transcript enquires whether they have got the hyphen in all right in putting the broken parts of Plymouth Rock together. From the scanty crop of hyphenates which Plymouth Rock produced it had not been suspected that a hyphen belonged in it.

Prohibition is a failure, according to many opinions, but still it is to be noted that the gay resorts throughout the country are passing one by one.

Some of the surplus poison gas might be used on the army of grasshoppers that has marched over 300 square miles in Colorado, destroying crops.

AN UNDESIRABLE OVERFLOW.

There are some indications that the Cubans are wearying of being an overflow station for American thirst and American gambling propensities. There is even talk of prohibition on the island, though that is probably no more than talk. The Latin American habit and inclination, as well as principle, being against abstinence enforced or otherwise. But while they like to regulate their own habits, neither the Cubans nor Mexicans like to see their country made a safety-valve for the lubulous habits of other countries. And along with transplanted American alcoholic indulgence has gone a great deal of gambling. A symptom of this Cuban fatigue is a bill that has been introduced in the Cuban Congress to revoke the so-called Turle bill which legalizes gambling under certain very exact conditions. The repeal measure, even if it passes, will not be effective until 1923.

NOTES and COMMENT

That England goes to Africa for counsel on the Irish question is one of the important pieces of news. Special Jan. 4. Smuts proved himself in the world war and it is not impossible that he can help to a solution of the troubles that have distracted that most unhappy country.

Panama safeguarded its lives and property from patriotic exuberance by a police ordinance prohibiting the sale of fireworks except in certain zones, and under special officers. Consequently there were only four fires of 175 worth of destruction and one small boy nearly killed. But at least no one came near solving the problem than some towns did.

Total receipts of the night, \$1,621.39. No wonder that all the hopes-to-be and has-beens have been galvanized into life and what to get a wheel at the American heat time while they are in such a literal mood.

Haywood hasn't got here yet, but word about the I. W. W. and those who feel that way to keep on waiting for an industrial revolution. When he jumps his bail and fled to Russia, the idea that to some degree obtained that this country was out of him was too good to be true. But he should be appropriately welcomed when he arrives.

The United States Senate rejected the proposition to adjourn for a month by a vote of 28 to 21. Just whether that signifies an industrial obsession or a put-up job to balk some body's practical desire to go somewhere and cool off, cannot be determined. Senator Lodge proposed the recess.

We hear from Drolaski again, and along the customary line—he has been arrested in New York City. But the charge is different. It concerns illegal stock sales instead of illicit booze.

State Controller John S. Chambers may have disconcerted and certainly has surprised them by manifesting a disposition not to resign his civil office just because he has accepted the presidency of a bank. A good many plans have evidently been laid with regard to the succession in the state controllership.

The man who came from New York to escort a street gorilla and a 24-foot python across the continent, they having just arrived from India, has a return journey of which a good many tips could be imagined that would be more attractive.

The saccharine situation is aptly put in the statement that sugar has capitulated but candy is holding out on a separate peace. It is borne out by the fact that sugar has come down to 6 cents a pound but candy remains at a dollar up.

The days when so many things happened at once at Alhambra, making it a fanciful metropolitan reputation, are recalled by the news that truck-laying on the Western Pacific has reached that center. Now it will be justified in resenting any pleasantly that may be indulged in in its name.

The Richmond Record-Herald tells of a tremendous destruction of head-cour. "Concealed" continuing to shoot off their explosive ends. Millions of perfectly good hats have been ruined and put to the bad by people talking through them."

SPIRIT OF THE STATE PRESS

Judge Edgar of Berkeley sentenced a speedster to seventy days imprisonment in the Alameda county jail for a good second for driving fifty of the possible ninety miles an hour of which his special car was possible. The Judge broke the record and sentenced the offender as aforesaid—Byron Times.

Sheriff Veale has been so busy gathering up the loose end of events transpiring during his four months absence in Australia that he has hardly time to say much more than "how are yab?" to anyone aside from his stenographer. "Interesting city, Sydney, and great country, Australia, what I saw of it," says the Sheriff. "But O, you Californians!"—Martinez Gazette.

The Long Beach fellow who selected a policeman to whom to say, "Hello, little one, are you looking for a good second for driving fifty of the possible ninety miles an hour of which his special car was possible. The Judge broke the record and sentenced the offender as aforesaid—Byron Times.

"Tactics make you forget," someone has said, and it was a mouthful to the head of the family sometimes. Inevitably from the number of errands he is sent on after the first of the grounds that nearly everything was forgotten—San Bernardino Sun.

Places on all navy yards, shore stations and ships in commission were hoisted to half-mast Thursday, June 30, in respect to the memory of former Secretary of the Navy Charles J. Bonaparte—Vallejo Chronicle.

THE SON'S CHARACTER

To the Editor of The Tribune:
In your issue of yesterday is an article concerning Charles G. Dawes recently appointed by President Harding as Director of the Budget, referring to Mr. Dawes as a man of outstanding personality. This brings to mind the remarkable fact that on the occasion of the death of his only son, Rufus Fearing Dawes, which occurred by drowning in Lake Geneva on September 5, 1912, at the age of 21, the father gave the funeral oration, beginning as follows: "The most of these friends and acquaintances of my dear son, so far as the outer world is concerned, his promising life, cut off so early, must ever be wrapped in obscurity. But I, his father, owe him one last solemn duty, to project the last lessons of his life as far as lies within my power, by using this last assurance of his friends, when their hearts and grieving hearts will the more indelibly receive the final impressions of his memory."

One sidelight on the character of the boy was that, after working during one summer vacation he saved over and above his board, etc., \$30. Of this amount he spent twenty dollars for twenty baskets of provisions at Christmas time, which on Christmas morning he personally delivered at the homes of twenty poor families.

The father said further: "My boy was imperious. He recognized no superior on earth, and yet was the tender and intimate friend of the weak and humble. I have taken him with me among the greatest in the nation and looked in vain for any evidence in him of awe or even curiosity. He has taken me, asking me to help them, among the poor and lowly of earth."

Again: "He commenced early in life to set himself against the crowd, for no man rises to real greatness who follows it. Of his own initiative he joined the church. For a long time he taught a Bible class of boys at Bethesda mission. He did not smoke, nor swear, nor drink. He was absolutely clean. Yet in his stern opposition to the drift, he mingled tolerance in just that quality which contributed to real power to be used in opposition, and for that purpose alone. Against the boy who sought to lead astray the weaker, he set his face like steel."

Near the close of his tribute to the memory of his son Mr. Dawes said: "And the lesson of this complete life is that this can be done by a young man without his being a proud fellow, without his bending to debasing environment. My boy lived long enough to win over. What-ever the years would have added would be only material. In a man's character is his real career."

So unusual was the thing that Charles G. Dawes did, and so remarkable seemed the character of the son, that Frank W. Ober, at that time editor of Association Men, the official organ of the International Y. M. C. A., personally investigated the career of Rufus Fearing Dawes, after which he wrote as follows concerning him: "I would like to sow the world with men possessed of the ideas and ideals of Rufus Fearing Dawes. A generation of youth with character and convictions like his would work a revolution as irresistible as the resurrection of Spring. I have traced his life through the Association as a Junior and as an Intermediate at Evanston, Ill. (his home); as an

About YOUR HEALTH

Why a Child Under Six Ought to Be Examined Often.

By ROYAL S. COPELAND, M. D., Commissioner of Health, New York City.

Nothing is more important to insure future usefulness than to guard the child against those conditions which make for disease of the heart. Except only by the trouble with which the infant may be born, it is rare for a child under six to have heart disease. Indeed, acquired heart trouble in children of this age is most unusual. In children it is difficult to determine that the heart is actually affected. In some cases there may be considerable involvement of the heart muscle and yet the common signs of heart disease may be absent. There may be no murmurs, no unusual heart sounds, and still that organ may be far from normal. It is important for the parent to understand that a good many conditions neglected in early childhood are possible factors in the production of later trouble with the heart. Doctors should not be looked upon in the same way that fire engineers are to be used only when the need presents itself. The most useful service rendered by physicians is in warning against impending danger. In occasional physical examinations conducted by the family doctor there may be permitted to develop conditions which will result in serious disease and shortened life. Acquired heart disease is almost unheard of in children who are well nourished, free from certain minor ailments, and who have been taught proper health habits. The tonsils and the nasal cavities should be inspected. The presence or absence of adenoids should be determined. Continued colds and running from the nose are abnormal. They must be properly treated and overcome. The child should be taught how to blow his nose, and made to understand the uses of the handkerchief. Cleanliness and proper function of the nasal cavities are vitally important to the immediate and future welfare of the growing child. To prevent the development of heart disease it is necessary to watch the child after any fever. He should be under competent medical supervision until recovery is complete and his strength has been entirely restored. A child with fever should be sent to bed and kept there until every fraction of temperature has disappeared. His play and games must be simple and free from violent exertion. His diet should be complete. Care of the mouth and throat must not be overlooked. Dental defects in children are serious, as they are in adults, and the dentist should be called upon regularly. "Growing pains" indicate rheumatism and rheumatism has heart involvement as one of its worst effects. throat and dental defects may be responsible for the pains in the muscles or joints. Bad feeding and intestinal trouble are other causative factors in "growing pains."

The parent must guard the young child against exposure to wet feet, colds, excessive fatigue and physical and mental strain of every sort. Children can be made to work so hard at play or at kindergarten as to be the ready victim of heart disease. Watchful care of the young child will ward off the dangers of heart trouble. Every child needs sleep, good food and plenty of fun are essential to health.

KOEHLER'S GREAT PLAY SAVES GAME FOR THE OAKS

LOCALS PLAY BRILLIANT BASEBALL AND WIN 6 TO 2 WHEN THE SEALS GO TO PIECES

IF SEALS DON'T LIKE KOEHLER'S STYLE OF BLOCKING, OAK FANS DO

Gameness of Young Oakland Catcher Causing Opposing Players to Fear for Lives.

By EDDIE MURPHY

It has been said that the members of the San Francisco ball club don't like the way that Art Koehler, the Oakland catcher, blocks the plate, and that some of them fear he will be carried to a hospital in pieces some day. In Tuesday's game, Art did some clever blocking when runners were sliding home, and he did likewise in the series before this one with the Seals. But who wouldn't get sore at watching Art Koehler block runners from that plate, especially when the onlooker isn't interested in the Oakland ball club. No matter how many outside of the Oakland ball club think Koehler takes a risk in blocking the plate, Oakland players and fans think that he is one of the most clever in the game at that kind of work, and that it is no wonder the San Francisco players don't like his style.

The Coast League would be much better off if it had some more players like Koehler. He is a player who isn't afraid to play hard and his gameness yesterday in blocking the plate, just about won the ball game for the Oaks and caused them to even up the series with their rivals.

Koehler Made Great Play To Shut Off a Run

The Oaks defeated the Seals by a 6 to 2 score, and Art Koehler was the shining light for the locals. He pitched for the Oaks and his throwing of the ball against the Seals was a real thing. He started the big rally in the fourth inning when he threw a double play which ended the Seals' fourth inning and started the Oaks' fourth inning.

Just before he got that third double play, Koehler made a daring play to keep Jimmy Cavanaugh, the Seals' shortstop from scoring a run and giving the Seals a 3 to 2 or better win. The score was 2 to 2 when Cavanaugh opened the eighth with a double. Koehler threw a ball that rolled about twenty feet in front of the plate before Koehler grabbed it and threw it to first. Cavanaugh was out. Koehler looked around just about the time Cavanaugh threw the ball, and he saw that the Seals' catcher was in a position to catch the ball. Koehler didn't like the way the Seals' catcher was positioned, and he decided to throw the ball to first. The Seals' catcher was out. Koehler didn't like the way the Seals' catcher was positioned, and he decided to throw the ball to first. The Seals' catcher was out.

P. I. League Clubs Hope To Get By With 12 Players.

By cutting down to a twelve-player limit, the clubs in the Pacific International league hope to be able to get through the full season. The clubs in the Pacific International league hope to be able to get through the full season. The clubs in the Pacific International league hope to be able to get through the full season.

Here Is Example Of What 12 Player Limit Does.

In a little fanning box at Ambrose's cutup shop a number of local players talked of how badly a twelve-player limit handicaps a ball club. So the conversation drifted to last year, when the Western Canadian league with the Edmonton club was down to twelve players, due to lack of good men and injuries. For more than a month Bobby Smale, the local youngster, then with Edmonton, was forced to play center field with a broken hand, while in right field was a pitcher, and in left field was a catcher. That is probably a feat which no other player in organized baseball could boast of.

Kremer Wins Fifth Game in Row for Oaks

His Team-mates Give Him Good Support and Stage Rally in Eighth.

Ray (Wiz) Kremer, the tall right-handed gentleman of the Oakland pitching staff, like Harry Krause, is having his best season in the mound in a few years. Yesterday afternoon at Recreation Park in San Francisco the tall boy pitched his fifth straight win for the Oaks and the doughnuts include several games in which he acted as relief hurler. Until the fifth inning, the Seals had a fairly good time picking on the shoots of Kremer, and without taking credit away from the Seals' pitchers, it can be said that he was given some brilliant support by his teammates. Jack Knight made a couple of hair-raising jumps around second and tossed runners out at first. Ralph (Babe) Pinelli stopped Agnew's line drive with his gloved hand and then grabbed the ball in his bare hand after it bounced into the air. He also threw to within a foot of the plate to field Crumpler's hit and forced a runner at second. In the second inning Jack Miller made a long run toward the left field foul line to get Kelly's line drive with a runner on second.

The Oaks were on their toes at all times yesterday and played great ball, while the Seals were completely out of their minds. When the Oaks scored four runs and clinched a 6 to 2 victory, the Oaks took the lead in the eighth inning when Crumpler let a throw from Agnew get away from him. Crumpler drove into a single that scored Willie Miller, and moved to third when Crumpler let a throw from Agnew get away from him. Crumpler drove into a single that scored Willie Miller, and moved to third when Crumpler let a throw from Agnew get away from him.

San Joaquin League Too High Tone For Some Clubs.

Paying high salaries to former professional stars to perform in the San Joaquin Valley league has already hit a couple of clubs hard, and there is a possibility of another club dropping from the second half of the league. The San Joaquin League is too high tone for some clubs.

The Coalinga club is said to be the one facing the well-known rocks in the second half of the league. The Coalinga club is said to be the one facing the well-known rocks in the second half of the league. The Coalinga club is said to be the one facing the well-known rocks in the second half of the league.

Small Clubs Do Well.

The regatta was remarkable for the number of titles of second and third place won by "underdog" clubs. The Ariele club has not won a championship in years and the Junior crew stroked Joel Jordan stands out as one of the best rowers in the Pacific Northwest. The regatta was remarkable for the number of titles of second and third place won by "underdog" clubs.

Rickard Expects to Sign Carpenter and Tom Gibbons

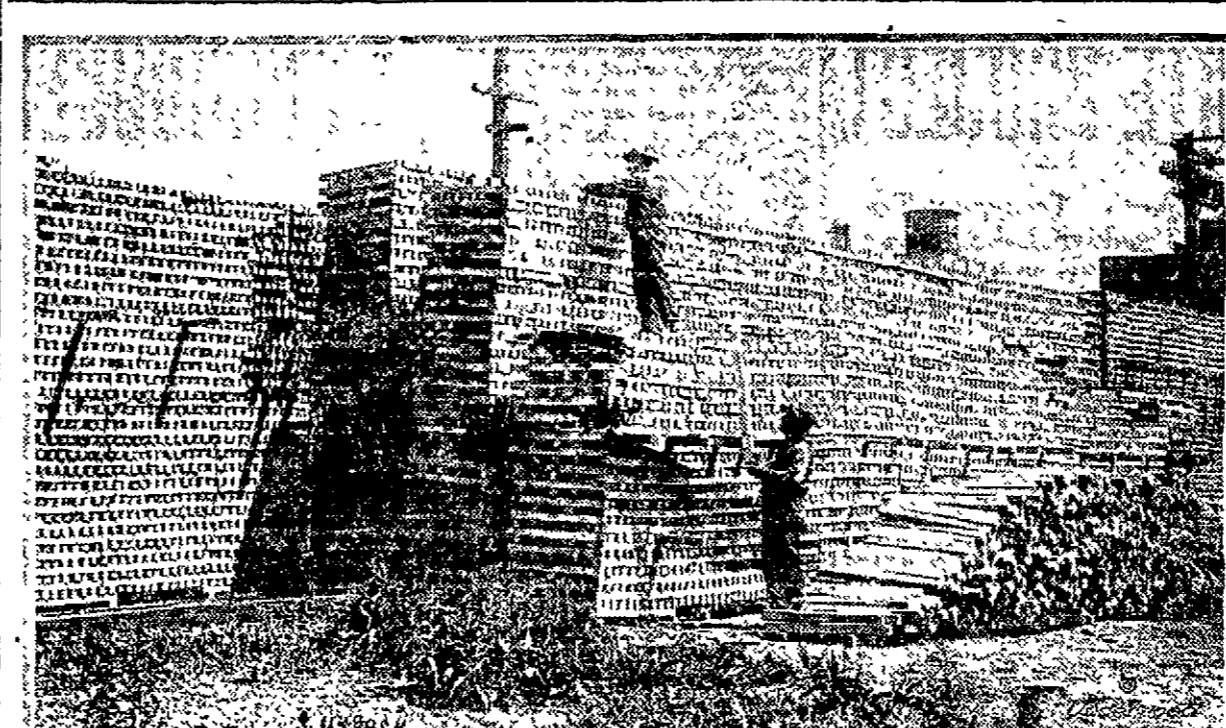

NEW YORK, July 7.—Hope of getting Georges Carpentier's signature to the articles of agreement for a bout with Tom Gibbons on Columbus day, October 12, was expressed by Tex Rickard, who said he expected a visit from Desamps, the French boxer's manager, during the afternoon.

Woodmen Defeated By Halton-Didiers

In an interesting game at Washington Park, the Woodmen of the Sea were defeated by the Halton-Didiers. The Woodmen of the Sea were defeated by the Halton-Didiers.

ARSENAL OF THE BASEBALL WORLD

They look like a lot of things which they are not. The "pickets" will be baseball bats some day and there are enough in this corner of the lumber yard to keep the small boys of the nation and the Babe Ruths and George Kells in clubs for many a year to come. The picture shows only the corner of a baseball bat manufacturer's lumber yard.

Rowing Due To Experience A Big Boom

Smaller Clubs Are Getting Plenty of Winning Material.

By BILL UNMACK.

For the fourth time in the last five years the South End Rowing Club of San Francisco won the senior four-oared championship of the Pacific Association of Amateur Oarsmen at San Francisco last Monday. The victory of the "big four" of the California clubs puts them in line to row the winning senior crew of the Pacific Northwest regatta which is to be rowed next week at Vancouver, B. C. Arrangements will be started immediately after the regatta to enter the club in the two sectional championships together in a race for the Pacific coast title.

There is no question of the ability of the South End crew of San Francisco, but on the other hand their win of less than a length over the San Diego rowing club shows the ability of the defeated crew. For years past the South End crew has been the champion of the Pacific Northwest regatta, but on the other hand their win of less than a length over the San Diego rowing club shows the ability of the defeated crew.

Best Tractors Win Both Games From Maxwell Hardware

Washington Baseball Team Beats Waseda

SEATTLE, Wash., July 7.—University of Washington's nine yesterday defeated Waseda University of Japan for Tuesday's defeat by drubbing the visitors 3 to 1 in the second game of the series.

JACK JOHNSON CANNOT BOX IN NEW JERSEY, SAYS COMMISSION

Still Looking for Opponent for Dempsey, but Material Is Very Hard to Locate.

By HENRY L. FARRELL

United Press Staff Correspondent

NEW YORK, July 7.—In handling the Dempsey-Carpenter fight, the "Jersey" boxing commission was right on the job. The commission is still on the job.

There is no disposition in boxing circles to persecute the former world's champion, but there is a desire to keep the game from carrying more burdens than it is saddled with now.

Tex Rickard knows the public pulse better, perhaps, than anyone connected with the American boxing game and he was the first to say that a match with Johnson would not go.

WORLD'S GREATEST TRACK STARS WILL COMPETE AT BERKELEY

BENNY VIERRA AND EDDIE RAMIES BOX SENSATIONAL DRAW AT AUDITORIUM FIGHT SHOW

BIG EASTERN COLLEGES WILL BE REPRESENTED AT THE U. C. RUN-FEST

Charlie Paddock Will Decide Some Time Today if He Will Participate in Festivities.

With the arrival last night of athletes from three of the big Eastern colleges, and those from New York due this morning, and the selections of the officials, the stage is set for the Pacific Amateur Athletic Association's invitational meet which will be held at California Field next Saturday afternoon. Among last night's arrivals were national title holders, and the track fans of the Bay Cities are due to witness one of the greatest track meets in the history of California Field.

The Pacific Coast, Middle West and Eastern athletic clubs of any importance in the athletic world will be represented at the meet. Among them will be the Multnomah Athletic Club of Portland, the Los Angeles Athletic Club, which this week won the national team championship; the Illinois Athletic Club, New York Athletic Club, Chicago, Boston Athletic Club and the Olympic Club of San Francisco.

Herbert Hauser, secretary of the Pacific Amateur Association, announced this morning that he expects a definite answer today from Charlie Paddock of the L. A. A. C. about participating. Paddock announced a short while ago that the meet at Pasadena would be the last one he would participate in.

The visiting athletes will do most of their training at the Olympic Club in San Francisco. Korgness, the crack Harvard hurdler, arrived a couple of days in advance of his teammates and he stated that he expects Saturday's meet to be a more important one than the little meet at Pasadena. The hot weather took a lot of interest out of the Southern California one, he claims. Unless the weather is too warm, Korgness looks for some records to be equaled or shattered next Saturday.

CHAMP VAULTER IS HERE.
The committee handling the invitational meet has passed up an opportunity to make it one of the biggest and most attractive of any to be held here, is evidenced in the many big stars who are already on hand. Ed. Korgness, the national champion pole vaulter, who is among the unattached, arrived yesterday, as did Dan Ahearn, who holds the record in 100, 200, 400 and 800 yards. The Birmingham Athletic Club of Alabama has sent another champion here for the meet. He is Ed. Richter, who holds the five-mile championship. He also arrived yesterday.

Representatives from three of the big four eastern colleges arrived last night. Each delegation was headed by the entire team of its respective college. Last night's arrivals were from the Boston, Chicago and Illinois athletic clubs, while those of the New York Athletic club arrived this morning.

OLYMPIC CLUB CONFIDENT.
The Los Angeles Athletic club, which won the honors at the Pasadena meet, is hopeful of again coming out on top in Saturday's meet. Also the Olympic club of San Francisco, which finished third best at Pasadena, is fighting strong on first place. But both California teams are going to have a hard time doing as they please, for the east and other sections have sent their best men to compete.

Among those who arrived last night are: Illinois Athletic club—Joel Ray, 1 mile; C. L. Nash, 800; Larry Butler, captain, University of Michigan, 440; H. Pentress, 400; C. L. Cruickshank, University of Michigan, hurdles and broad jump; John Wells, University of Wisconsin, shot and discus; E. French, 5 miles; Earl Gillilan, shot and discus.

From the Pacific coast—H. O. Cutbill, 880 and mile; J. J. Connolly, Georgetown University, 880 and mile; J. J. Sullivan, hurdles; J. W. Driscoll, 220 and 440; E. O. Gourdin, Harvard, 100 and broad jump; J. A. Ryder, manager.

Chicago Athletic association—D. V. Albert, University of Illinois, national champion high jumper; H. O. Blackwood, discus, 55 and hammer; Alec Zeller, walker; J. S. Prescott, 100 and 200 hurdles; H. B. Hagen, 100 and 220; O. R. Benson, hammer and 55; C. Clark, shot; P. Spink, University of Illinois, 440 and 880; P. R. Graham, pole vault; S. H. Darwent, manager.

Due to arrive today on Lark: New York Athletic club team—Larry Brown, University of Pennsylvania, captain; Larry Sheld, Penn State, 880 and mile; Frank Shea, University of Pennsylvania, 100, 200, 400, 800, 1600, 3200, 6400, 12800, 25600, 51200, 102400, 204800, 409600, 819200, 1638400, 3276800, 6553600, 13107200, 26214400, 52428800, 104857600, 209715200, 419430400, 838860800, 1677721600, 3355443200, MUSIC TEACHERS
URGED TO RAISE
WORK STANDARD

Free Scholarships to Encourage Children in Study Is Advocated.

The child in music engaged the interest of the morning session of the eleventh annual convention of the Music Teachers' Association of California in session in Eboli clubhouse. Warning was given by President Edward Pease of Sacramento that the teachers of the State must get together to improve the standards of work and their profession in view of the efficient work which was being carried on in the public schools of California.

Free scholarships offered by the Music Teachers' Association and Parent-Teacher Associations to the talented child; series of free concerts for children; and development of appreciation of music in all its forms were urged.

Miss Florine Wenzel, Sacramento; Miss Anne Clark, Redlands; Miss Cora W. Jenkins, director of Jenkins School of Music, Oakland; Professor R. C. Strickland, University of California; and Miss Alice M. Eggers, head of music in Oakland High school, were the speakers.

TEACHER STAGE MANAGER. "The talking teacher is no teacher," Miss Eggers told the convention which is representing a membership of more than 500 music teachers of California. "She has become the stage manager. Discipline in public schools is no longer necessary. Excess energy is taken care of in sports on tracks, tennis courts and diamonds. The old type of classroom is going of the map."

She outlined how high school students were being trained in the study of harmony in classes made up of foreign born and negroes. Music is following the general trend of education toward its practical side, according to the speaker.

"Violin students have the poorest ear in harmony," she pronounced. "Saxophone players give the initial expression of themes in fox-trots."

The reluctance of school authorities to exploit the private teacher in recommending training to students was commented on by the Oakland woman.

Professor Strickland gave a lecture on harmony.

CREDITS URGED. Credits for students of music in the public schools with time allowed for private instruction was urged by Miss Wenzel who repeated a paper presented before the Music conference of the State Board of Education. The elimination of studies not essential to a musician, substitution of necessary work and credits for outside instruction or lengthening of the period for graduation to those majoring in music was suggested in the plan to place music on an equality with other school subjects. A questionnaire issued by the state association inquiring the reasons for the discontinuation of private instruction in music revealed that students found it too difficult to keep up with school work and outside study, according to the report of Miss Wenzel. She suggested free scholarship for talented public school children.

The music of the future will come from America, according to Miss Anne Marie Clark, supervisor of music in Redlands. How Redlands was providing an avenue whereby every public school student might earn a musical education was outlined by the speaker. Credit to the amount of tickets sold for a series of musical appreciation concerts in which students and professional artists participate is placed to the student for purchase of admissions to other concerts, of musical instruments or private instruction. Every member of the Music Teachers' Association in Redlands has presented a free scholarship each year to the music department of the public schools, the student being chosen in competitive examination. Study of music is based on a library of records. A series of organ recitals has been given free to the schools.

SAVE IMAGINATION. Conservation of imagination and poetry in a child by making its study of music interesting rather than a task was urged by Miss Jenkins.

Miss Wenzel presented the program. The elimination of studies not essential to a musician, substitution of necessary work and credits for outside instruction or lengthening of the period for graduation to those majoring in music was suggested in the plan to place music on an equality with other school subjects. A questionnaire issued by the state association inquiring the reasons for the discontinuation of private instruction in music revealed that students found it too difficult to keep up with school work and outside study, according to the report of Miss Wenzel. She suggested free scholarship for talented public school children.

DELICIOUS AND REFRESHING
NOONTIME or anytime, no other beverage can equal it.

George W. Ashworth, chief of the division of customs, held out more hope to the thirsty.

The discovery was the result of experiments made at the government sugar college for ways of converting the huge surplus of sugar into salable goods.

Coal is rapidly supplanting wood as a fuel in Persia.

George W. Ashworth, chief of the division of customs, held out more hope to the thirsty.
